And the following is a screenshot of: Witch Children of Nigeria. And from the text: Victims of marginalization, abuse and murder: In Nigeria, aid organizations estimate that thousands of children are accused of being witches each year. Often it is their own families who believe that their children are possessed by demons.

Los "niños brujos" de Nigeria

19/11/2022

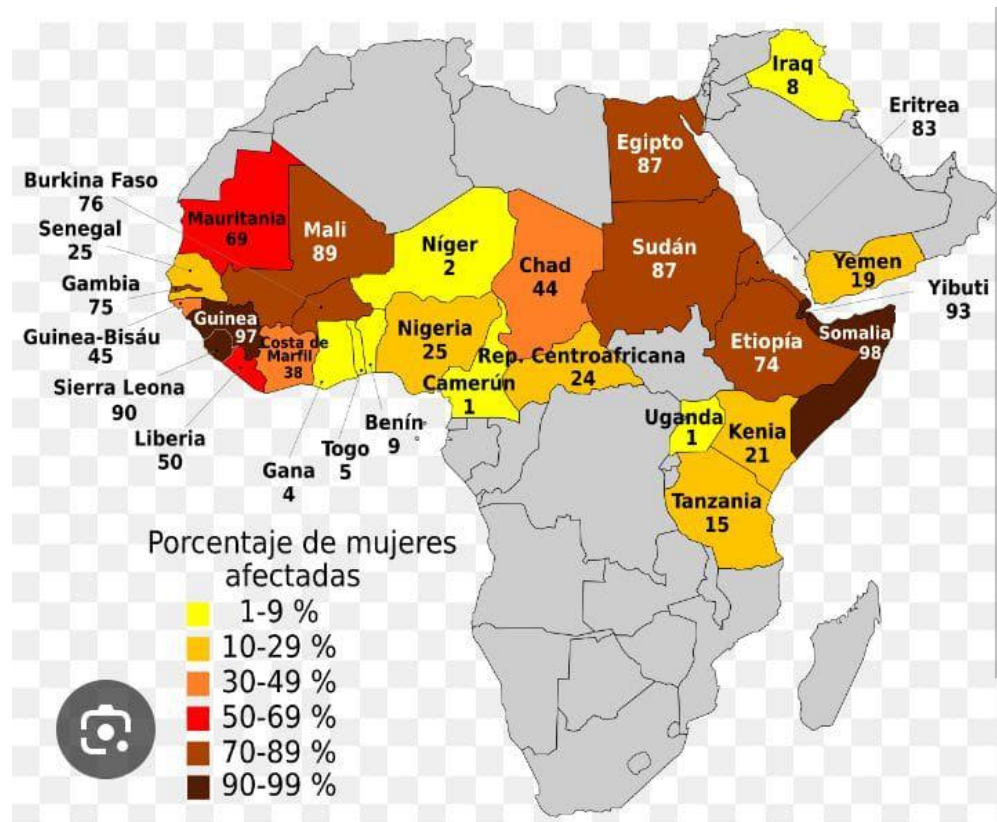

Víctimas de marginación, abusos y asesinato: En Nigeria, las organizaciones de ayuda estiman que miles de niños son acusados de ser brujos cada año. A menudo son sus propias familias quienes creen que sus hijos están poseídos por demonios.

In Africa: many children who are accused of witchcraft suffer torture and murder.

Who are the members of the Christian churches that cause this?

The answer is that they are other blacks.

The countries where clitoral excision is most practiced:

As you can see, the large percentage of this practice is in Africa. With this I do not mean that blacks are the only ones who commit this aberration and I am not saying that all blacks commit this, but I do mean that blacks are the race where this practice occurs the most.

And yet that Wakanda movie where that Mexican mestizo imbecile acts makes us believe that all black people are kind and better beings, and makes us believe that all indigenous people are sexist, when black people are the ones who practice clitoral ablation the most.

=

And the culture of the majority of Mexicans has no relationship with the indigenous: bullfighting, the Catholic Church, the cattle ranching culture, cockfighting, the belief that not crying and harming the weakest is being a man and strong, those soap operas that I hate and disgust me, the contempt for indigenous people that is so common in Mexico and the preference for white, all of this so common in Mexico is of European origin, therefore, it is offensive when the majority relates it to Mexico with indigenous people, when the majority of mestizo Mexicans despise the indigenous people in Mexico.

Furthermore, that Mexican mestizo clown who appears in that disgusting Wakanda movie by saying that mestizaje does not exist and that mestizaje is a European concept, what he is doing is collaborating in the project of governments and elites that mestizos replace to the indigenous people and that the true indigenous people are made invisible, which is why the worst enemies of the indigenous people are often the mestizos and what is politically correct does harm the indigenous people.

The majority (men and women) are totally bad and deserve the death penalty (to be sacrificed): because they are indifferent to the lives of indigenous people and vote for politicians who harm them, throughout the continent the police and military are Servants of the colonial state, the majority care more about black people than indigenous people, and when they talk about racism they only think about black people (never about indigenous people).

And the genetics of the indigenous people of this continent are related to East Asians (hence the slanted or almond-shaped eyes and radiant black hair) and not to blacks.

In all the countries of the continent: the police and the military are damned criminals who serve the colonial State to oppress and harm the indigenous people, they are the ones who murder indigenous people the most, those who expel indigenous people from their territories, those who displace to indigenous people from their territories, those who monitor indigenous people to intimidate them, those who work for the United States and for the Freemasons, and those who carry out violence against indigenous people.

Furthermore, they are old religious fanatics of Christian religions, homophobic, racist and sexist in the sense that they believe that harming the most vulnerable and the most oppressed by society is power, strength, bravery or manliness depending on their stupidity.

And these damned disgusting police and military personnel who always serve the Colonial State and never rebel against it: they never pay for the crimes and injustices they commit that should be paid for with the death penalty.

The following photos are of murders of indigenous people caused by presidents named Jair Bolsonaro in Brazil, Jeanine Añez in Bolivia, Dina Boluarte in Peru and Guillermo Lasso in Ecuador. And Brazilian politicians publishing in favor of the Temporary Framework, which is a law that causes harm to indigenous people in Brazil.

Throughout the continent: it is the damn majority of those who are not indigenous (Creoles, European immigrants, mestizos, blacks and mulattoes) who vote for the politicians who commit these crimes and injustices against the indigenous people. The majority of those who are not indigenous are not good people and are not innocent, even if they believe they are.

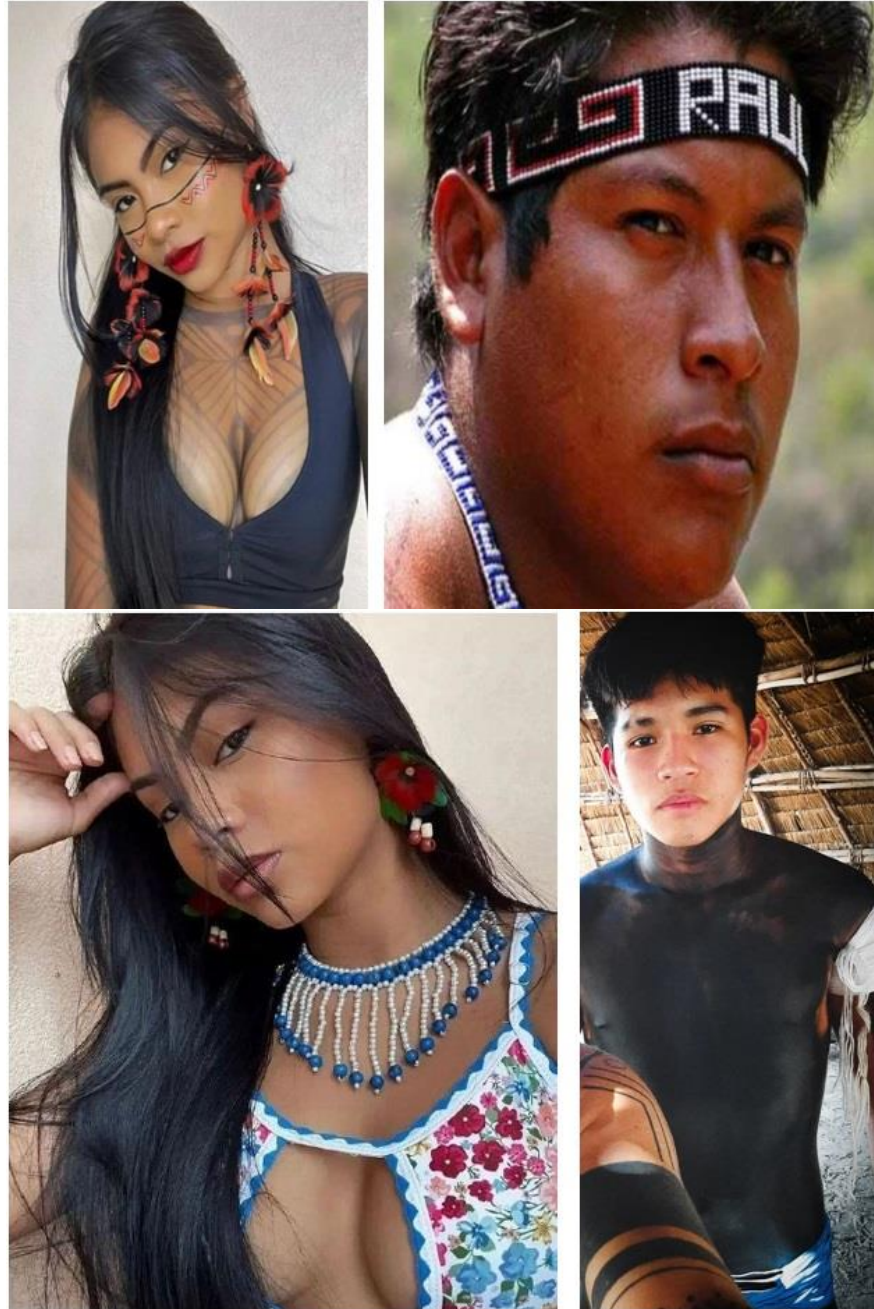

And in Brazil: the deputies and senators who approved the Temporary Framework that causes harm to the indigenous people were elected by the damn majority of Brazilians who voted for them.

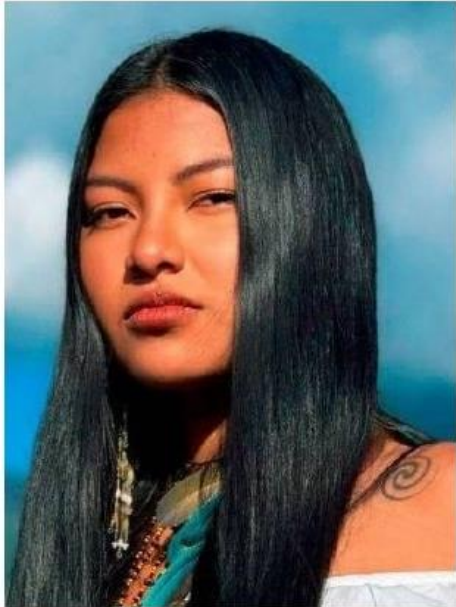

In all countries on the continent: the damn majority are totally despicable and deserve the death penalty. But, in Brazil, Mexico, Argentina, Chile, Colombia, Guatemala, the United States and Canada they are three times as despicable and damned that they should not reproduce and should not exist.

The majority is selfish, individualistic, they only think about money and what benefits them personally, regardless of whether they harm minorities, the majority hates the indigenous people because they support the livestock that the Europeans brought and they like that like that garbage of the cowboys, the Christian religions that were brought by the Europeans, and they watch movies, series and cartoons that promote hatred of indigenous people, and that represent them as ugly and savage.

And mestizaje is part of the plan to exterminate the indigenous as accepted by Catholic politicians and Freemasons in Mexico, as I verify in my publication called THE ORIGIN OF THE SYSTEM AND THE CURRENT SITUATION (Part 1).

The indigenous skin is reddish, not black; and their physical features are the same as those of East Asians, and not blacks:

Miscegenation is a form of extermination of indigenous people because the majority of mestizos are like Europeans in their way of being, they are like Europeans in their way of thinking, they have the same vision of the world as Europeans and the same tastes as Europeans.

Furthermore, the majority of mestizos hate and despise indigenous people, consider indigenous life as disposable, vote for politicians who commit crimes against indigenous people and are indifferent to what indigenous people suffer.

And miscegenation causes the great physical beauty and sensuality present in some indigenous people to be lost.

I am not indigenous, but I do defend indigenous people. I am white and I am mestizo, but I consider the majority of whites and the majority of mestizos (whether white or brown) as bad people, as despicable people, and I feel a lot of contempt for the majority of whites and for the majority of the mestizos.

Many damned people affirm that criticism of miscegenation is the same as Nazism. But, in reality, miscegenation is the same as Nazism, because miscegenation represents the extermination of the indigenous people.

The criticism of mestizaje has not caused the extermination of mestizos and has not caused concentration camps for mestizos, but throughout the continent it has caused genocides against indigenous people and concentration camps for indigenous people. Some examples are the following photographs:

It is always the majority of humanity that is not indigenous (Creoles, European immigrants, mestizos, blacks and mulattoes) who vote for the politicians who caused in the past and who cause in the present all these massacres of indigenous people.

That is why the majority of humanity along with these politicians, power elites, police and military deserve the death penalty.

There are many damned people on the Right who claim that indigenous people pretend to be victims and that they take advantage of the role of victims, and also, traitorous indigenous people who are equal to these criminals who say the same thing.

But, all of this that I denounce in this publication is proof that indigenous people are true victims and do not pretend to be victims.

Those who do victimize themselves, that is, those who do pose as victims are the majority of non-indigenous people with stupid conspiracy theories that make the majority appear as innocent victims of the elites.

When in reality, those who are victims of the elites both in the past and in the present are the indigenous people, and not the majority.

The majority are selfish and individualistic, they only think about themselves, so as long as they are happy and well: they do not care about the indigenous people, the happiness of the majority is indifference, selfishness and individualism, positive people keep the system as it is because they are those who conform and see everything well. And the New Age promotes toxic positivism.

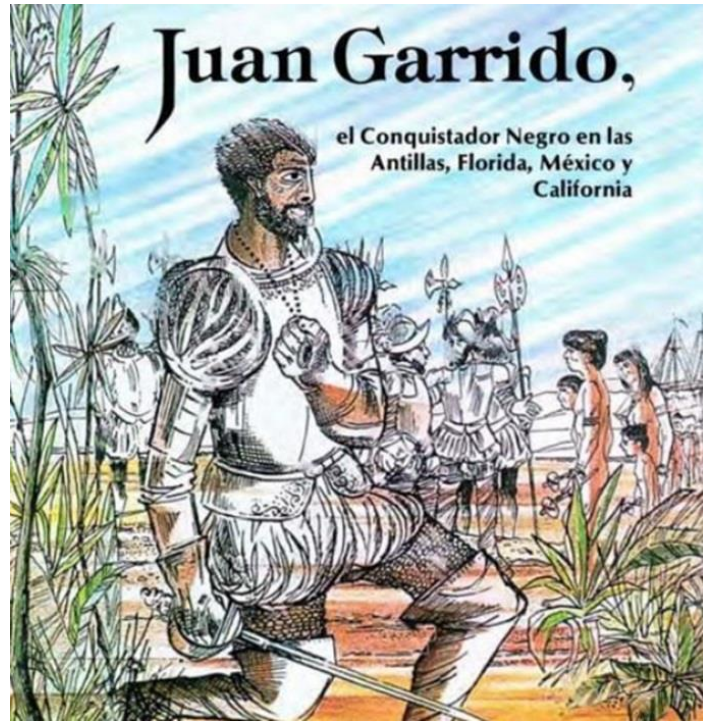

I have never seen people making fun of black people, nor people making them uncomfortable or making gestures of contempt when they have black people next to them. But, I have seen many laugh at indigenous people, and make gestures of annoyance, discomfort and contempt when they have indigenous people next to them.

I have even seen many hypocrites do this who talk about pride in their indigenous roots or ancestors, that when they talk about indigenous people as roots it sounds similar to roots that are underground or buried, and when they talk about indigenous people as ancestors it sounds like saying that they belong to the past and not the present or that they are primitive.

When the majority talk about indigenous people as roots and ancestors, it seems completely disrespectful and offensive to me.

And there were black colonizers, black cowboys, the buffalo army made up of blacks who were going to murder indigenous people, and also, black people in the present who make hateful comments towards the indigenous people and who harm the indigenous people along with many mestizos as already I mentioned it in my other post and in my free books.

I have met many blacks, and they also hate and despise indigenous people or mestizos who have these traits, many are religious fanatics of Christian religions, many are conservatives and many say classist phrases like dead of hunger.

And as in the previous screenshots where blacks and a brown mestizo are whipping Emberá indigenous people for stealing some bananas to eat in Colombia by living in extreme poverty and being expelled from their territories by the damn police and damn military: many blacks and mulattoes consider that stealing to eat is a serious crime like rape and murder (something disproportionate and ridiculous).

Also, many blacks and many mulattos, as well as many Creoles, many Europeans and many mestizos, consider indigenous people who defend themselves or take revenge as bad, criminals, terrorists or savages.

While the damn majority (creoles, mestizos, Europeans, blacks and mulattoes) never call those who harm the indigenous people savages, bad, terrorists and criminals.

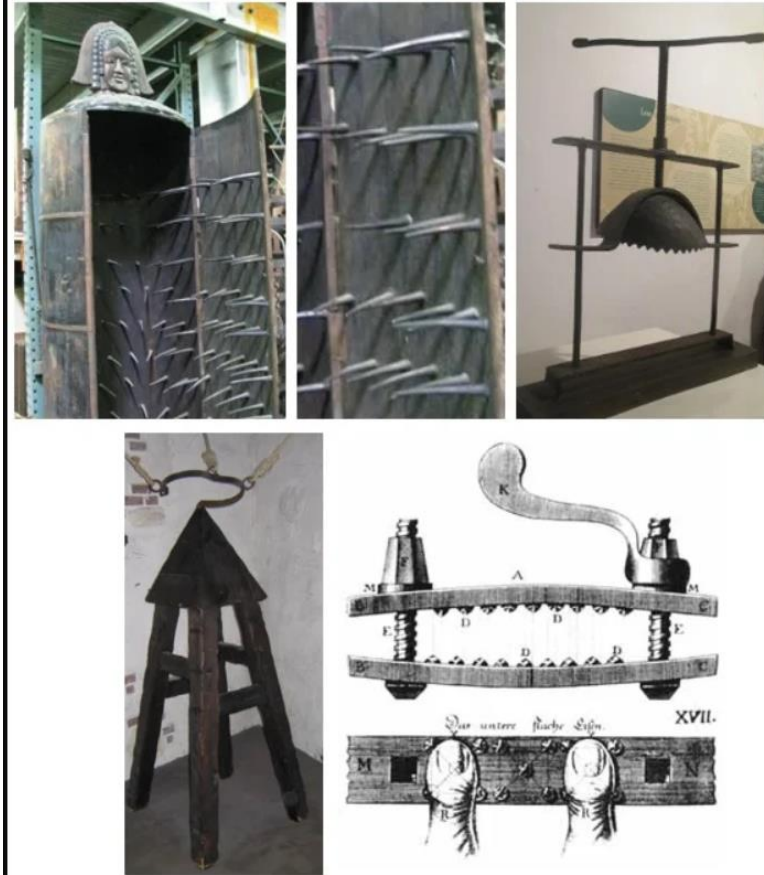

I'm not saying that all blacks are like that, there is a minority of blacks and a minority of mulattos who are not like that, just as there is a minority of whites

and a minority of mestizos who are not like that, but the majority of blacks and Mulattos are like most Europeans, they are like most Creoles and they are like most mestizos.

And as long as the continent is not governed only by indigenous people and there are no indigenous warriors to defend the indigenous civilian population as in times past: indigenous people will continue to suffer extermination, genocide, hatred, contempt, extreme poverty and famine throughout the continent.

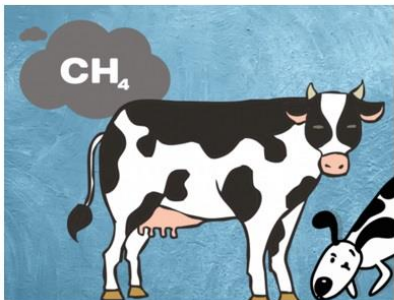

White races like the Celts and Vikings made human sacrifices, and Christianity also made them when in the Catholic inquisition and the Protestant inquisition they dedicated themselves to defaming, torturing and murdering people, and when they murder indigenous people in the present.

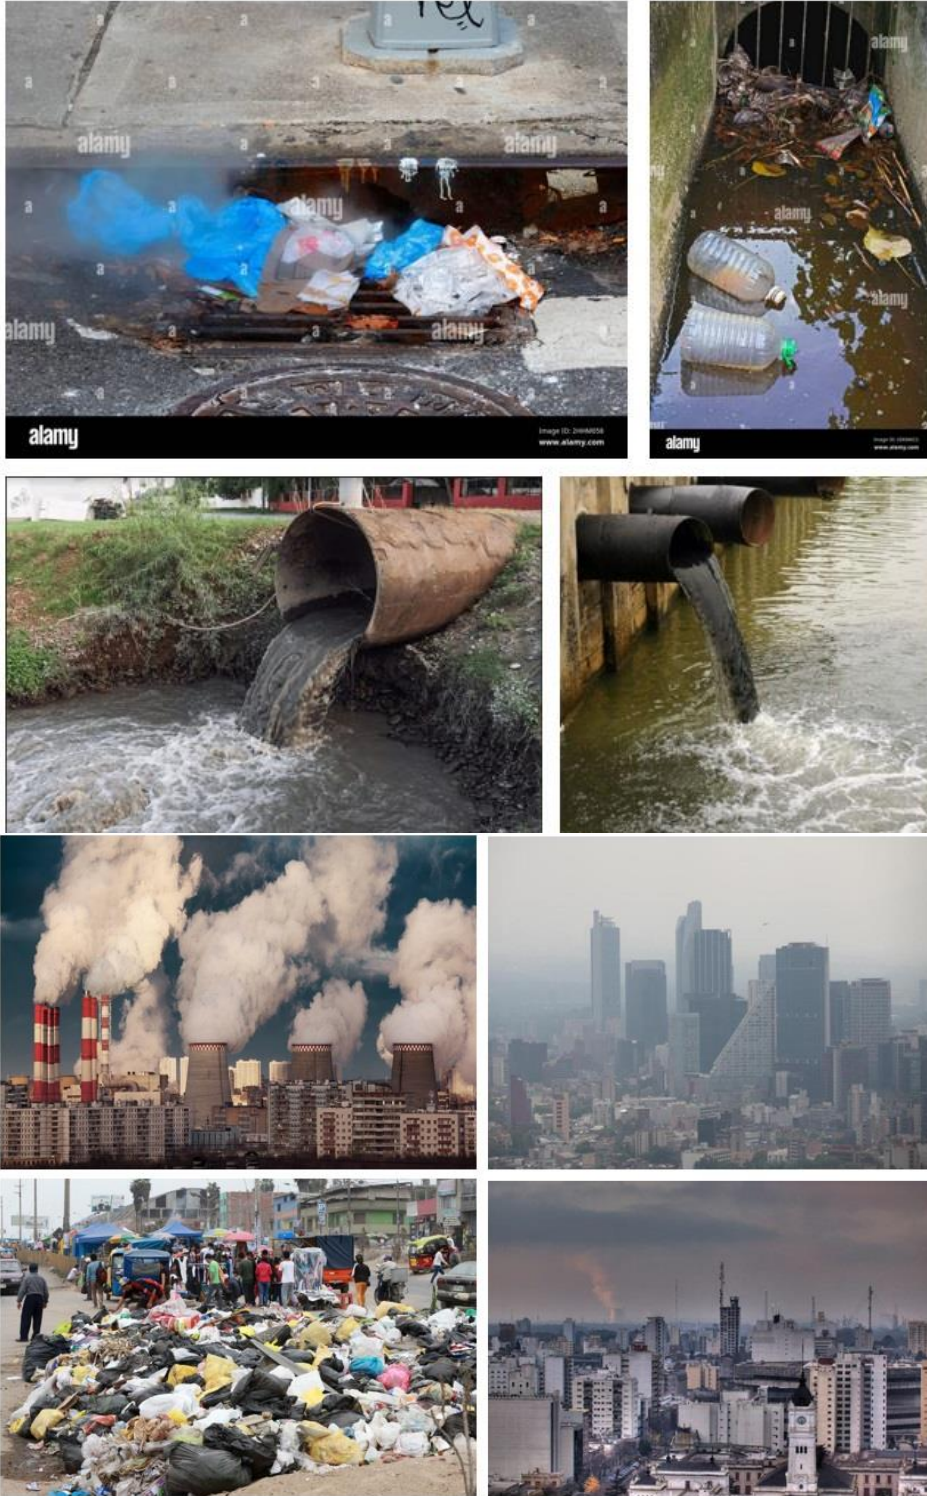

The death penalty is a human sacrifice, and for me the majority of humanity is 100% evil and they deserve the death penalty, they deserve to be sacrificed for many reasons.

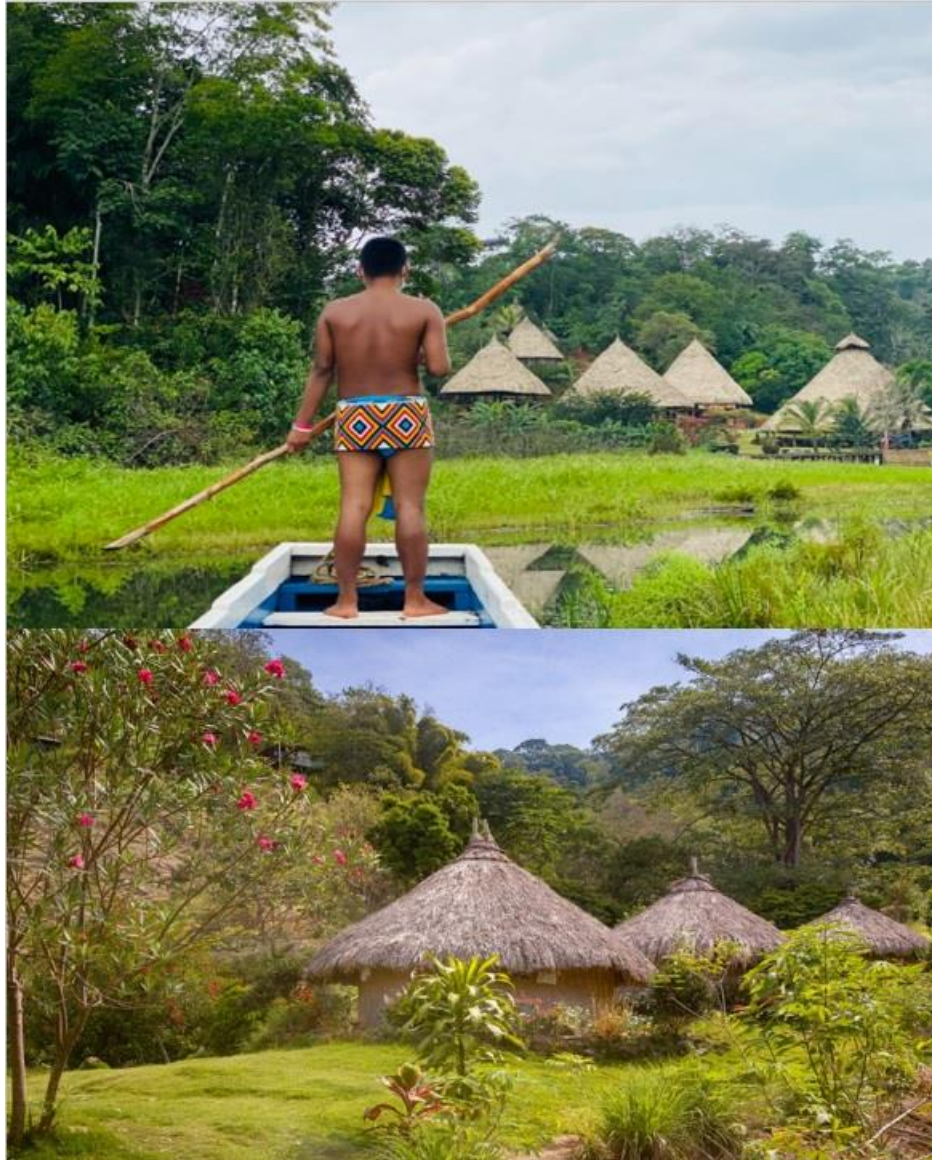

My topics of conversation will never be the same as most. The damn majority, the damn governments and the damn elites in power consider that civilization, progress and development is this shit:

While, that same damned majority of disastrous humanity, the damned governments and the damned elites in power consider the following beauties to be uncivilization, backwardness, something wild or primitive:

Unfortunately, most indigenous people have their minds colonized by Christian religions, and most are not aware that Christian beliefs and the Bible were brought by the European colonizers who murdered them.

I do not believe in Judeo-Christian, that is, I do not believe in the god of the Bible, I do not believe in the devil, I do not believe in Jesus Christ, I do not believe in angels and I do not believe in demons.

When something suits them from the Bible to the damn majority, they say that it is exactly as it is written, they never say that it is a metaphor or symbolic and they never say that it is taken out of context, even if they only mention one or two verses.

But, when something doesn't suit them in the Bible, they always say that they are metaphors or that they are symbolic parts or that they are taken out of context.

Where is the mental health of believing in a god invented by the Jews (who emerged from the Persians (Arabs in the present)) who commands the killing of children and pregnant women in the Torah (Old Testament)?

Isaiah chapter 13, verse 18: They will sweep away the young with bows, they will not have mercy on the fruit of the womb, nor will their eyes have mercy on the children.

Hosea chapter 13, verse 16: Samaria will be desolate, because she rebelled against her God; They will fall by the sword; their children will be dashed, and their pregnant women will be cut open.

Psalms chapter 137, verses 9: Blessed is he who takes and dashes his little ones against the rock.

And so, the criminal majority has the nerve to say that they are against abortion and with reference to abortion due to rape to say that the child is not to blame, and at the same time worship a god who commands the killing of children and to pregnant women demonstrating that their fictional Judeo-Christian god does believe that children are to blame for what their parents do.

Where is the mental health of believing in a god who supports human slavery and a father selling his own daughter into slavery?

Exodus chapter 21, verse 7: If anyone sells his daughter into slavery, she will not be freed like male slaves.

Exodus chapter 21, verses 20 and 21: If someone hits his or her male or female slave with a stick, and they die as a result of that blow, they will be punished. However, if the slave survives a day or two, the attacker will not be punished, since the slave was his property.

Colossians, chapter 3, verse 22: Slaves, obey your earthly masters in everything, not only to gain their favor when they are watching you, but with a sincere heart and out of respect for the Lord.

1 Timothy chapter 1, verse 6: Let all who are under the yoke of slavery consider their masters worthy of all respect, so that the name of God and our teaching will not be dishonored.

Where is the mental health to believe that those teachings of the fictional character called Jesus Christ that defend those who do harm to love their enemies, to forgive everything and turn the other cheek are good?

Would you tell a rape victim or a mother whose child was murdered that she has to love her enemies, forgive everything or turn the other cheek?

Where is the mental health of hating someone just because of their sexual preferences?

Where is the mental health to believe that beliefs that were imposed with defamation, torture and murder in the Catholic inquisition and the Protestant inquisition are good?

Where is the mental health of believing that the majority is good at being complicit with Catholic priests and evangelical pastors who sexually abuse or rape minors and being indifferent to the pain of the victims?

Where is the mental health of believing that a majority that has always been indifferent to what indigenous people suffer and votes for politicians who harm them are good?

Where is the mental health in believing that a majority who are selfish, individualistic and only care about money are good?

Where is the mental health to believe that the personal tastes of the majority (red meat, milk and dairy products) brought by the European settlers who brought livestock to this continent and to East Asia (where East Asians have the same genetics as the indigenous people of this continent), which generates a lot of deforestation for pastures and which generates excessive emissions of polluting gases (methane, nitrogen and nitrous oxide) is above life and the planet, and believing that someone is good if they like cowboys ?

Where is the mental health of believing that a god who contradicts himself in his own word is true and of believing that a god who contradicts himself is perfect?

In Deuteronomy chapter 24, verse 16: Parents cannot be put to death for what their children have done, nor children for what their parents have done, but each one will die for his own sin.

But, in Isaiah chapter 14, verse 21: prepare to kill the children for the crimes their parents committed.

In Leviticus chapter 1, verse 3: If the animal you offer as a burnt offering is your livestock, it must be a perfect bull.

But, in Isaiah chapter 1, verse 11: I have had enough of your burnt offerings of rams and the fat of calves; The blood of bulls, rams and goats disgusts me.

Where is the sanity of believing in a fictitious god who claims that if a woman is raped, she must be sold for fifty silver coins to the rapist and forced to marry the rapist?

Deuteronomy chapter 22, verses 28 and 29: if a man finds a virgin girl without a commitment to marriage, and forces her to sleep with him, and they are discovered, then the man will have to give the girl's father fifty silver coins ; and, since he has dishonored her, he will have to take her as his wife, and he will not be able to divorce her as long as he lives.

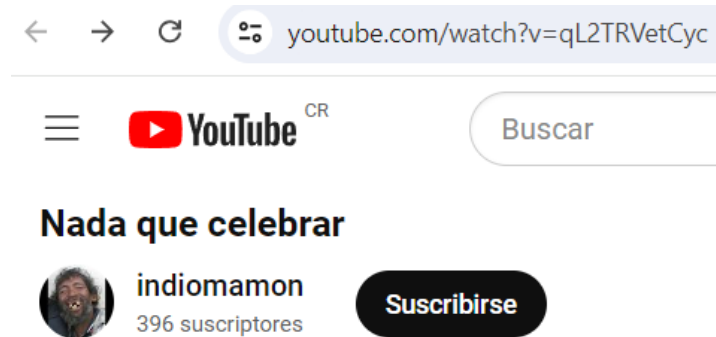

What is mentally healthy about believing in that story invented by the Jews that a talking snake 🐍👄😬 deceived Eve?

I believe that the majority, in addition to being 100% bad, although they believe they are good, and deserving the death penalty, also, the majority are 100% stupid.

And in all the countries of the continent: the police and the military are criminals at the service of the colonial state, and old religious fanatics, sexist in the sense of believing that harming the most vulnerable and the oppressed is strength, virility or bravery, and old homophobic, They seem like unpleasant beings to me and I hate them.

What is mentally healthy about believing that a majority that thinks that harming the weakest, harming the most vulnerable or harming the innocent is manhood, strength, virility, power or bravery are good?

Look at the stupidity of this YouTube channel called indiomamon, this screenshot of their shitty video titled: Nothing to Celebrate.

The damned one says: - The Indians are not a native people of America, but rather an immigrant people in America.

I mean, according to this idiot: Europeans were not immigrants in America, according to this idiot, Europeans were originally from America, and when the Indo-Europeans expanded throughout Europe, giving rise to the white races (Greeks, Romans, Celts, Vikings, Slavs, Saxons, Nordic and others) were not immigrants for this idiot.

Look how idiotic that criminal is who, when he reads that the ancestors of the indigenous people came from Asia, relates them to the Muslims of the Middle East who, even though they are brown, do not have those eyes.

The damn genocidaire must think that the ancestors of the white races always existed in Europe, this idiot has never read that the white races (Greeks, Romans, Celts, Vikings, Nordics and Slavs) are of Indo-European or Eurasian origin.

And those Muslims shown in the photo have nothing to do with the indigenous people, those Muslims in the past were the same Persians, and the Aryans (inhabitants of Iran) of the Persian Empire were the ones who invaded and colonized India, giving rise to the Indo-Europeans or Eurasians, then these Indo-Europeans or Eurasians spread throughout Europe giving rise to the white races.

Seriously, no one can surpass the level of stupidity of these damn genocidal murderers.

Middle Eastern people like Muslims are genetically related to whites, not indigenous people. Those who are genetically related to the indigenous people are the people of East Asia such as the Chinese, Filipinos, Vietnamese, Mongolians and the indigenous people of Siberia, not the people of the Middle East. But these criminals are idiots.

And when he says that the poor blacks, it is proof that YouTube and the majority condemn racism against blacks and mulattoes, while allowing hatred and racism against indigenous people and East Asians, because when they

justify the hatred of indigenous people with what their ancestors are Asian prove to be racist.

But YouTube and social networks (Facebook, Instagram and Twitter (X)) allow racist comments that hate indigenous people and East Asians, while immediately censoring comments against blacks, mulattoes, mestizos, Creoles and Europeans.

twitter.com/atrin27/status/306974758543687680

I don't know if that bastard is Spanish or not, but the truth is that there is a video where the idiot believes that brown mestizos are the same as indigenous people, that is, he posts photos of indigenous people, but others seem more like mestizos or even Muslims. So I get the impression that it could be from Spain, although it could also be from this continent.

YouTube, Facebook, Instagram and Twitter have censored me many times, but these bastards are allowed to promote hatred of indigenous people and East Asians with impunity and without any censorship.

What would happen if someone made a channel just like that, but instead of attacking indigenous people, they attacked black people?

The answer is that YouTube would eliminate the channel immediately, it would receive worldwide repudiation, and for using photos of black people it would receive many international complaints, but they take advantage of the fact that many indigenous people have limited resources and that the majority are indifferent to life of indigenous people, including YouTube and social networks that are part of the genocide that indigenous people suffer today.

Moros is what the Spanish call Muslims. It really is stupid, because the idiot does not know that the Arabs of the present are the same Persians of the past, and the white races, being of Indo-European or Eurasian origin, have the same genes as the Arabs (Moors as the Spanish call them).

Can you imagine a channel like that, but about black people, just with the name negromamon it would be eliminated and probably whoever does it would have to pay a fine or go to prison.

The idiot relates the color coffee with milk to genetic origins, which is stupid, because the white races did not always have the light pink color, when the Indo-Europeans expanded to Europe their skin color was coffee with milk because Aryan simply means inhabitant from Iran, but due to the cold climate of Europe their skin turned pink, they developed more body hair and greater height.

It is like the case of Chinese and Japanese who have the same genetic origin, but due to the colder climate in Japan, the Japanese tend to have lighter skin and be taller, therefore, it is absurd to relate skin color with genetic origins.

And when they say that the indigenous people were in the stone age in the video, this criminal makes it clear that he means that they are poorly evolved or primitive, all those who have caused massacres of indigenous people say the same thing.

And we return to the same thing that these stupid people believe that development or evolution is related to the materials with which it is built, therefore, they think that evolution and development is building with materials that contaminate and destroy the environment.

When he says that the Indians were not good at working, it is the same as when those who support the extermination of indigenous people in the present say that the Indians are lazy, they cannot see a photograph of an indigenous person resting because they already say that they are lazy, while if they see a photograph of a white person resting in a hammock, they don't say the same thing.

Also, the cursed clown denies that slavery of indigenous people existed, when the colonizers themselves accepted in their letters and books that they used indigenous people as slaves. In addition, they were made to work all day without rest, without food and whipping the indigenous people with whips.

The colonizer Bernal Diaz Del Castillo wrote in his book called True History of the Conquest of New Spain: - and that we had to go to war and load the ships with Indians from those islands to pay for the ship with Indians, to use them for slaves.

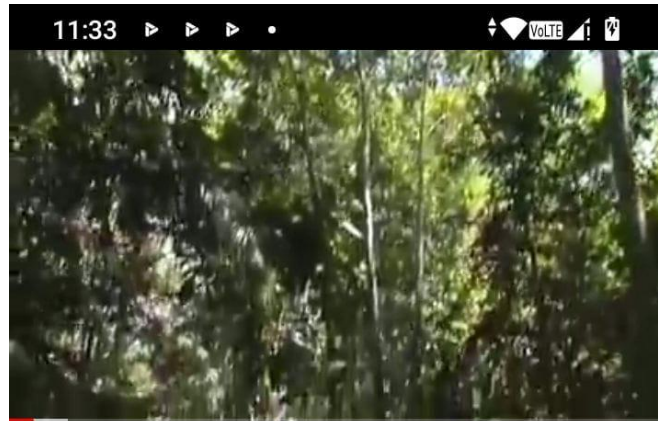

This criminal clown implies that the indigenous people were given humane treatment, time to eat, time to rest, that they only worked 6 or 8 hours and that they were only put to work without whipping them. When it wasn't like that.

The treatment was sadistic and hateful, they did not have the right to eat, only at dusk they could eat something, they were forced to work all day from dawn to dusk, and they constantly received whippings to demonstrate hatred, power, domination and virility as they believed the colonists and how these monsters believe in the present.

When he mentions indigenous people and indigenous children who beg, this monster implies that this is the fault of the indigenous people, when the fault that there are indigenous people begging lies with those who are not indigenous, who by taking away their territories and taking away their ways of life to impose the Western way of life on them caused them to not be able to continue being self-sufficient, and furthermore, on the continent the damn majority prefers not to give work to indigenous people, and for that reason, they force them to beg.

Before colonization, all indigenous people were self-sufficient, they did not need help from anyone and they did not need the State, because they had clean water from rivers, forests, jungles and land to cultivate, they had everything from nature.

But, these imbeciles do not realize that they are the ones who make the indigenous people dependent on the State, but then they complain that the State gives crumbs to the indigenous people, when those crumbs would not be necessary if they allowed the indigenous people to continue with their lands and with their self-sufficient ways of life.

Regarding the previous screenshot: this video, which is an excerpt from a documentary created by a Christian organization in the United States, seeks to imply that the majority of indigenous people in the Amazon commit infanticide, when the indigenous people who commit infanticide are a small percentage and not the majority.

Why don't they talk about the cases of white mothers and white fathers who murder their own children?

Why don't they talk about how their Judeo-Christian god ordered infanticide by ordering the murder of children and pregnant women?

Furthermore, the colonizers themselves accepted that they committed infanticide by murdering indigenous children in invasions and wars against indigenous people who did not submit to their rule, and when they used indigenous children to feed their hunting dogs.

Letters and reports from Hernán Cortés to Emperor Charles V: – And when I startled them, they came out unarmed, and the women and children naked through the streets, and I began to do them some harm.

And when he talks about savages he means living in nature, because for these criminals what is civilized is living in polluted cities, full of garbage and noise.

For example, when in Cuba, the indigenous people of the Taíno ethnic group and other indigenous ethnic groups of Cuba were exterminated, they were forced to bring black people as slaves.

And all this because they could not control their hatred of the indigenous people and the sadistic pleasure that harming them caused them, if they had forced the indigenous people to work, but only 6 or 8 hours, with times for them to feed and with rest times, and without whipping the Indians to death, it would not have been necessary for them to bring blacks as slaves.

And I'm not saying that if they did it this way it would be okay, but this way they wouldn't have had to go to Africa to bring black slaves.

It is obvious that, although they also whipped the blacks because we cannot deny it, this happened in the past, but the treatment with the blacks was much more humane than the treatment they gave to the indigenous people.

With the indigenous people there has always been a visceral hatred and a sadistic pleasure in harming them, but, although they did bring black slaves and that was not good because they should have left the blacks alone in Africa just as they should have left the indigenous people alone on this continent, and these settlers stayed in Europe without invading other continents, it must be said that

the treatment with the blacks was always better than that received by the indigenous people.

If the European colonists had stayed in Europe without invading this continent and without invading places in East Asia, only Europe would be in shit with polluted cities, full of noise and garbage, and with rivers contaminated with human excrement and garbage, but I don't know how they could left only in Europe, they invaded other continents and caused the same thing on other continents.

In addition, they brought the Bible and the Christian religions that, being anthropocentric, teach to destroy the environment, to harm animals of other species for pleasure, and the stupid idea that humans can live without other nature.

And as I have already mentioned before Christianity, the white races (Celts, Greeks, Vikings, Romans and Slavs) were dedicated to raising sheep, goats, bulls and cows, which generated a lot of deforestation to make pastures and excessive gas emissions pollutants (methane, nitrous oxide and nitrogen) because cows and bulls have larger digestive systems than humans and larger than other animals, in addition, drinking water is contaminated with blood and waste from these animals, and these animals consume more drinking water than humans and consume more water than vegetable crops.

And Christian and European settlers brought this livestock of bulls and cows to this continent and to East Asia.

I will always be against the farming of bulls, cows, sheep and goats, because that was brought by the European settlers, it causes a lot of deforestation, and excessive emissions of polluting gases (methane, nitrous oxide and nitrogen).

But, in order not to eat red meat from animals brought by the colonizers, not to drink milk and not to consume dairy products: it is not necessary to be vegan or vegetarian.

I have always suffered from gastritis and I have suffered from inflammation of the colon, and vegetable proteins such as chickpeas, beans and lentils hurt me more and made me more inflamed.

Plant proteins have oligosaccharides, polyols and insoluble fibers that can cause many gastrointestinal problems, excess gas, inflammation and colon problems.

These plant proteins contain trypsin and chymotrypsin inhibitors, this means that they hinder the functions of trypsin and chymotrypsin, trypsin is an enzyme that helps the body absorb proteins and chymotrypsin makes the function of the pancreas possible.

Vegetable proteins contain phytates that make it difficult for the body to absorb nutrients such as iron, zinc and calcium,

Additionally, I discovered that non-heme iron from plant sources is not as absorbed by the body as the heme iron found in animal sources such as fish.

Non-heme iron sources contain phytates, polyphenols and oxalates that make it difficult for the body to absorb iron.

And the type of Omega 3 that plant sources such as flaxseed, chia and canola contain, which is type ALA and that vegans so recommend, is not the type of Omega 3 that the body needs, the types of Omega 3 that the body needs are type EPA and DHA type.

And plant sources of Omega 3 types EPA and DHA are only found in marine algae such as Nori algae, Spirulina and others. If the majority consumed these algae, it would be an imbalance in marine ecosystems, because many sea animals feed on these algae.

In the sea, many organisms such as small invertebrates to large fish and marine mammals consume these algae, so if the majority consumed these algae it could significantly reduce the availability of food for these organisms.

Intensive seaweed harvesting could have adverse effects on the marine habitats where these species grow. Algae provide shelter and food for many marine species, and massive extraction could degrade these habitats, impacting biodiversity and the overall health of the ecosystem.

There are fanatical vegans who believe that everyone who eats meat should be killed and that veganism should be imposed even on people with limited resources such as indigenous people. With this, I am not saying that all vegans are fanatics, I am just referring to those who are and who make the most noise.

If these vegans have access to plant food sources all the time it is because of capitalism, because they can buy them in supermarkets, macrobiotics or greengrocers, and this is due to the importation of these products from other places where the weather seasons are different.

These privileged vegans believe that a plant, a bush or a tree magically produces a harvest every day of the year, and this is not true. Those of us who live in the countryside know that a plant, bush or tree only produces a harvest at certain times of the year and not every day.

Both vegans and non-vegans believe that lettuce and cabbage are healthy, and in reality, they are not, they have little nutritional value, and they greatly attract slugs and snails that can transmit harmful bacteria such as E coli and Salmonella.

It is true that animals of other species feel because they have a nervous system and that their ability to feel should matter. It is also true that humans are animals from a biological and scientific point of view, but fanaticism in veganism is a problem that it becomes something as colonial as the bull and cow farming brought by the colonizers.

Currently, veganism and animalism have become something incoherent and contradictory: many vegans and animal activists support politicians and right-wing and neoliberal political parties such as Donald Trump, Jair Bolsonaro, VOX and other of these garbage.

That is to say, these vegans and animal activists support politicians and political parties that are the ones that most support hunting for pleasure, bullfighting and cockfighting as I explained in my free books, and, in addition, politicians like Jair Bolsonaro, Donald Trump and parties like VOX are the ones that most support the farming of bulls, cows, sheep and goats for meat, wool, leather, milk and dairy products.

These vegans and animalists accuse those who only care about dogs and cats, but not other animals, of being speciesists. But, many of these vegans and animalists seem to only care about animals domesticated by humans, but not wild animals.

Politicians like Jair Bolsonaro, Donald Trump and others support miners, loggers, oil companies, hydroelectric companies, those who hunt for pleasure, and ranchers who raise bulls and cows to invade indigenous territories; and these vegans and animal activists support these criminal politicians.

When ranchers who raise bulls and cows, miners, loggers, oil and hydroelectric companies and those who hunt for pleasure invade indigenous territories, by deforesting and contaminating the environment they cause millions of wild animals to die slowly and very painfully.

But, these brainless and stupid vegans and animalists do not care that wild animals die due to invasions of indigenous territories, such is the case of horrible Argentines and horrible Chileans among whom there are vegans who hate the Mapuches and support that The Mapuche continue to be oppressed to benefit businesses that cause the death of millions of wild animals.

If a child suffers an attack from a crocodile, a dog or another animal: many of these fanatic vegans and fanatic animalists prefer the crocodile, the dog or the other animal over the child, which is why, if they have children They are a danger to their own children and therefore, they are the same as a religious fanatic.

It is normal in nature for one species of animal to attack another species of animal to defend its own young or other members of its own species.

On the other hand, many of these vegans and animalists say they accept that biologically and scientifically we are animals, but on the other hand, if a human visits a river, a forest, a jungle or a beach, they say that humans are invading the territory of other animals.

If a human needs to hunt to survive (not for pleasure) and fish to survive (not for pleasure), many fanatical vegans and fanatical animalists want to kill him, and prefer that the human and his family die of hunger, but in the case of animals Predators of other species such as lions, wolves, eagles and others never do the same, therefore they do deny that humans are animals.

If humans are animals, it means that we need contact with the rest of nature; we need to visit rivers, forests, jungles and beaches; but these vegan and animalistic dictators want humans to be locked in their homes like a prison, without contact with the rest of nature.

Also, you have to wonder why these damned people who hate indigenous people never talk about how the Vikings committed infanticide by sacrificing the weakest children to their gods. They never talk about how the Greeks and Romans committed infanticide by murdering children who were born weaker or with disabilities.

When in the next capture, the damn one talks about human sacrifices among the indigenous people:

This monster does it to imply that according to him all indigenous ethnic groups made human sacrifices, and that in those that did they all made these human sacrifices including the civilian population, because, for example, in the case of the Aztecs, the settlers They did not only attack the hierarchies that made human sacrifices, the European colonists attacked the civilian population that did not submit to domination and had no relationship with human sacrifices.

In fact, it is known that, among the Aztecs, those who made human sacrifices were the priestly hierarchy and the warrior hierarchy, and they were almost always sacrifices of prisoners of war or of people who had committed a crime, but the Aztec civilian population was not the one who made these

sacrifices. And the same was true with other ethnic groups in which human sacrifices did occur.

Why do these monsters never talk about the human sacrifices that white races like the Celts and Vikings made, for example, the human sacrifice of the blood eagle of the Vikings?

Why don't they talk about the instruments of torture that the Catholic Church and the Protestant Church used in the Inquisition such as the pear, the cradle of Judas, the rack, the thumb crusher, the flagellation, the heretic's pitchfork, the iron lady, the punitive spike collar, the Interrogation chair, the leg crusher and many others?

Why do they never talk about how when white races like the Vikings and Romans invaded other places, they also tortured and murdered humans, and that by dedicating this to gods of war, they are also human sacrifices?

It's like when these damned people talk about how Freemasonry wants to destroy the Catholic Church, when Domingo Faustino Sarmiento was a Catholic who made hate speeches against the indigenous people and was a Freemason, and the soldier named John Sullivan was a Catholic who helped the government of United States to exterminate the majority of the indigenous people and belonged to Freemasonry.

Or when these damned people say that Freemasonry wants to eliminate whites through the great replacement, and that it promotes the defense of indigenous people with the 2030 agenda, when Freemasons like Domingo Faustino Sarmiento, John Milton Chivington, George Washington, Andrew Jackson, Julio Popper and John Sullivan were the ones who made hate speeches against the indigenous people, expelled many indigenous people from their territories and caused massacres of indigenous people.

Masonic lodges and Rosicrucian lodges around the world should be destroyed. And all Freemasons and all Rosicrucians should be sentenced to death.

That is why many times these criminals say that indigenist do not have a neuron in their heads, when it is these Hispanicists and other defenders of colonization who seem to have no neurons in their heads and who seem to have shit in their heads place of the brain.

All this success that the political Right and the Neoliberals are having in the world, is also the fault of many who call themselves feminists for promoting misandry (hatred of men) and for saying stupid things like that vowels have a gender that according to In them the vowel o is masculine and the vowel a is feminine, and to speak that language that is inclusive of everything with the vowel e. And it is also the fault of the left for promoting pacifism and softness.

And let's also remember feminists like the former president of Chile named Michelle Bachelet who allowed the Mapuches to continue being oppressed by the State, which is totally related to Freemasonry and David Rockefeller.

It is quite striking that in the Masonic lodge where Michelle Bachelet meets, they wear the red Masonic apron:

While, in the Masonic lodges where Jair Bolsonaro and his son Flavio Bolsonaro meet, they wear the blue Masonic apron:

On this continent, the political right and the political left serve the same elites in power, both seek the oppression of indigenous people to benefit non-indigenous people (criollos, mestizos and others), only, using different methods, that is why , the Masonic chess grid means that they direct things that appear to be opposites, but are actually part of the same plan:

And this seven-branched candelabrum present in a Masonic lodge:

It is another proof of the relationship of Freemasonry with Zionism, because this candelabrum is a symbol of Judaism called Menorah. Remember that the Jews invented the Torah (first five gospels of the Old Testament) and the Tanakh (the other gospels of the Old Testament), and in Genesis it is written that this Jewish god created everything in seven days and that represents that seven-branched candelabrum.

And many on the left when talking about Islamophobia and anti-Semitism are supporting these garbage.

They are so stupid talking about tolerance, that everything has to be love and peace that they defend harmful religions like Judaism, Christianity and Islam that are the most harmful to the environment, to animals of other species and to indigenous people, they have shit in their heads from so much tolerance, love and peace, and that's why I hate them like the hippies and dreadlocks who seem like horrible people to me.

Semites do not exist as a race and I am going to explain why:

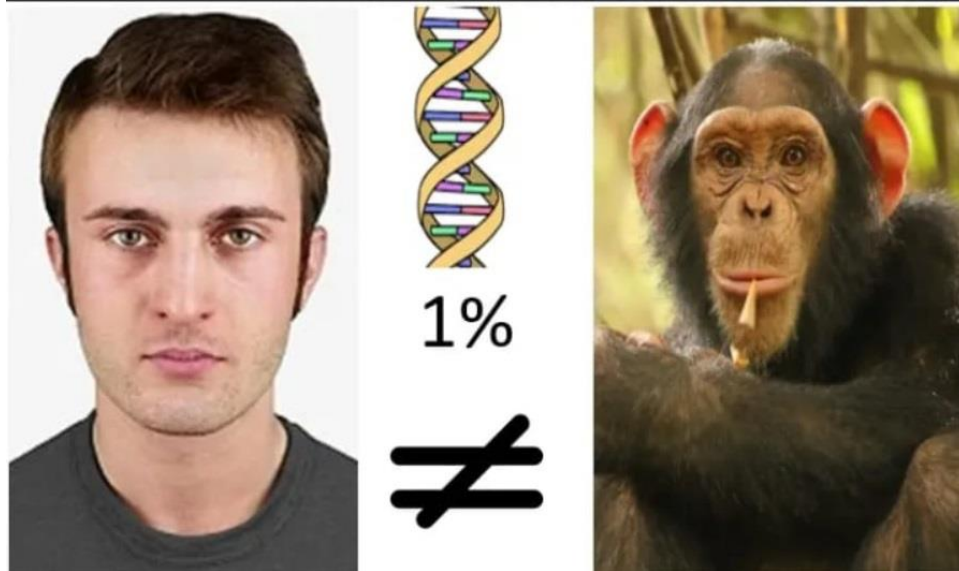

The Old Testament is fiction invented by the Jews and all the characters mentioned there are fictitious and not real.

The belief of these people from the Middle East is that the Semites are called that because they are races descended from Shem, who in the Old Testament is one of the three sons of Noah, so when they say Semites they are believing that they descend from a fictional character.

According to these Middle Eastern people like Jews, Muslims and others, Shem is the progenitor of the Semitic race, so they are talking about something fictitious because Shem is just a fictional character from the Old Testament that the Jews invented.

Mentioning religions like Judaism and Islam or Muslims as races, in addition to being stupid, is a big problem, because they can say the same thing about Christians that they are a race.

Since those of the politically correct left, like that old lady from Preguntas Incomodas, deny that human races exist based on the fact that genetic differences are very few, then let all of them say that chimpanzees and humans are the same race because the genetic difference is only 1%:

There are many clowns who, although they say that humans are animals, in reality, do not believe that we really are and that explains why they make so many differences between humans and animals of other species, and why they have no problems being biologists in the case of animals of other species, but they do see the problem in the case of humans.

For example, none of these deny that in the case of animals of other species they are herbivores, carnivores or omnivores if genetics influences them.

Nor do they deny that in the case of animals that are solitary and animals that live in groups or herds, genetics does influence. But, they do have problems accepting that genetics does influence human behavior.

Nor do they deny that in the case of animals of other species in which they engage in mutualism with other species (where they cooperate mutually to survive), in which they are parasites, in which commensalism occurs where a single species benefits, in which that competition occurs, in which amensalism occurs where one species is harmed and the other is neutral, in which neutralism occurs, and in which antagonism occurs as in predation: if genetics influences.

But, in the case of human races: they do have problems accepting the influence of genetics on the relationships between different human races.

What the non-indigenous majority have done to the indigenous people for sadistic pleasure, hatred, domination and to obtain economic benefit from the resources of those territories: it is predation.

And what they have done is colonizing their minds with Christian beliefs and not being aware that those beliefs were brought by European settlers, with the New Age, and not being aware that they are beliefs invented by white supremacy, with the farming of bulls, cows, sheep and goats, not knowing that this was brought by European settlers and not knowing the damage it causes to

the environment, with miscegenation (mixing with other races), and with pacifism so that they are defenseless against their enemies: It is parasitism.

And unfortunately, the majority of indigenous people have their minds parasitized. Therefore, as colonization takes centuries and continues in the present. If my goals could be achieved, decolonization would take centuries.

When I stated that genetics does influence the behavior of the majority of humanity, of the majority of politicians and elites, I am not justifying them, contrary to what a false friend from the past thought.

What I mean is that the majority of humanity, the majority of politicians and elites should not reproduce.

The majority does not see evil in the extermination of indigenous people, the reduction of the indigenous population, the oppression of indigenous people, and the replacement of indigenous people with other races and mestizos, because they vote for politicians who have always caused all this, they are indifferent to the lives of the indigenous people and place their interests above those of the indigenous people.

The majority does not see harm in eliminating dangerous and harmful animal species such as fleas, ticks, mosquitoes, flies, cockroaches, scorpions or scorpions, bed bugs that transmit Chagas disease, and poisonous spiders such as black widows.

But, if someone proposes to eliminate the majority of humanity, the majority of politicians in power and the elites, they are automatically considered crazy, a psychopath, sick, a criminal, someone despicable or a terrorist, and they are censored, They attack him or even kill him, he cannot find work and is often taken to prison or a psychiatric hospital.

By the way, the indigenous people of the Ngobe ethnic group call those who are not indigenous Zulias, and also, in the Ngöbere language: Zulias means cockroaches.

The Ngobes are one of the indigenous ethnic groups that remain most genetically pure (without mixing with other races), therefore, they retain more East Asian features (slanted or almond-shaped eyes and radiant black hair), and reddish skin.

Also, I do not deny that there are cruel indigenous people because indigenous people are humans and humans are animals, but what I do say is that there are more cruel people in the races that are not indigenous, and the races that are not indigenous are the that destroy and pollute the environment the most.

But, what those who hate the indigenous people do is generalize and put all the indigenous people in the same bag, and also, they cannot hide the sadistic hatred they feel for the indigenous people and their desire to eliminate them all.

Now in the case of blacks: in Africa, indigenous people like the Bushmen and the Pygmies are a minority, they are black, but different from the majority of blacks, the Bushmen and the Pygmies do not practice clitoral ablation, and they

consider the forests as sacred, but the problem is that the majority of blacks who are not indigenous in Africa harm the blacks who are indigenous.

And let us remember that the blacks who spoke the Bantu language organized hunts for Bushmen, before the Europeans arrived, that later the Europeans came to do the same, but the blacks who speak the Bantu language did it long before the Europeans arrived.

And the Bantu are genetically related to black people who practice Yoruba and Voodoo that emerged in West Africa.

It is strange that Europe, Western Asia, the Middle East and West Africa tend to be the opposite of East Asia and East Africa, and of course I am referring to before the Jewish, Christian and Muslim or Islamic colonizations occurred.

And also, many blacks who are not indigenous have always harmed the indigenous people of this continent, with few exceptions, just like the Europeans, the Creoles and the mestizos.

I agree that Judaism, Christianity and Islam are immoral, the problem is that since atheists emerged from Christianity, when atheists and skeptics talk about morality, they refer to Judeo-Christian and Western morality.

And atheism does separate the human being from other nature; If the forces of nature are not represented as deities, respect for those forces of nature is lost, the meaning of life is lost and leads to nihilism, and ritualism is a creative way of expressing desires and emotions.

Now let's look at someone like the Argentine Pablo Salum, he claims not to be an atheist, and when he attacks magical thinking he only refers to beliefs that are not Christian, because on many occasions he has said that Christian religions are better.

When people of Christian religions also pray to their god for health, abundance or protection, then that is magical thinking.

On the other hand, he never treats religious leaders of Christian religions such as Catholic priests and evangelical pastors as scammers, scoundrels and liars. He says that as long as they do not abuse and do no harm, according to him, they are respectable beliefs, when those beliefs are If alone they cause harm and cause abuse, on the other hand, with beliefs that are not Christian they always say that they are abuse.

Also, this stupid guy says that Christian beliefs are not coercive by themselves, that what are coercive are certain factions of those religions, but in the case of beliefs that are not Christian he always says that they are coercive by themselves without distinction of factions.

When Christian beliefs are coercive on their own, causing fear with a hell that does not exist, with a devil that does not exist and with demons that do not exist.

This idiot is one of those who would think that any worship of gods of indigenous ethnic groups is New Age.

When I do worship indigenous gods, without involving Jewish beliefs, without involving Christian beliefs, without involving Buddhism, without involving Hinduism, without involving beliefs in aliens who visit us, without involving beliefs in ascended masters, without involving toxic positivism and without involving pacifism : I'm not New Age.

Pablo Salum is not an atheist, apparently he has Christian beliefs, but he claims not to belong to Christian religions as such, but that, if he has these beliefs, he is politically correct (equality, peace, love and other antics), and apparently he believes that The damage that the colonizers did is a Black Legend, he confuses mestizos with indigenous people and believes that the colonizers came to do good, which is why, like most Argentines, he gets quite excited when he talks to Spaniards.

But, the fact is that atheists and skeptics act just like Pablo Salum, it is true that in the case of atheists and skeptics they attack Christian beliefs, but I have never seen them call Catholic priests and evangelical pastors scammers and shameless, like if they do it with beliefs that are not Christian.

Many times they say that, although they are against Christian beliefs, they believe that there are Catholic priests and evangelical pastors who really believe in what they say, but in the case of beliefs that are not Christian they always say that they are liars who do not believe in what they say.

It is true that the Right and the Neoliberals use biological theories to promote hatred of indigenous people, and to say that there are indigenous people who become alcoholics, drug addicts or steal because they already have it in their genetics, and not because of situations of oppression, hatred , rejection and extreme poverty in which they live.

But, also, denying the influence of genetics on human behavior is a way of defending the majority that harms the indigenous people, and of supporting the majority that harms the indigenous people, who destroys and contaminates the environment, who vote for politicians who harm indigenous people, who are consumerists and who buy products from companies that pollute the environment the most, continue to reproduce and never pay for their evil.

I do believe that the majority are bad because of genetics, but that genetics does not justify them and genetics does not eliminate their responsibility for what they do. I compare the majority of humanity with predatory animals, with parasitic animals and with dangerous animals, and also with viruses and cancer cells.

And by majority I mean the majority of those who are not indigenous, because, although the majority of indigenous people have their minds colonized, the indigenous people are different from the majority.

It is obvious that Western science is going to define the word intelligence according to Western ideas, and that obviously being disconnected from the rest of nature, will also cause humans to disconnect from the planet by thinking about outer space, intergalactic travel, colonizing planets like Mars and whether there is life on other planets, and not about valuing and caring for life on this planet Earth.

I am not going to deny that Western science has its positive and useful parts, because there is no such thing as 100% good or 100% bad, but it should not be the center of everything and should not be treated like a god.

The problem with atheists and skeptics is that for them Western science is the only important thing, they place Western science as the center of everything, they place Western science as their god and consider that only the objective matters, always despising the subjective.

It is the same as how the sick and cursed society in which we live defines civilization, development and progress according to Western ideas of individualism, selfishness, manufacturing with metal and using oil, polluted cities full of garbage, and placing money above the environment and above life, and these are the same definitions that give the word intelligence.

The problem is not the words, the problem is the definitions that society (the majority) give to those words. I never spoke of genetics in the case of intelligence from the Western perspective, nor of Western social classes.

I talked about genetics from the point of view of behavior, about how the disastrous way of being, the disastrous way of thinking and the disastrous vision of the world of the majority who are not indigenous (regardless of whether they are poor class, middle class, millionaire class or elites) if it is determined in a percentage of at least 40% by genetics.

I do not believe in IQ (Intelligence Quotient) because it defines intelligence with Western parameters that are disastrous. The words are defined according to the dominant society, which in this case is Western society, rotten and sick.

For this reason, atheism and skepticism are equally harmful to the Abrahamic religions (Jewish, Christian and Islamic) because atheism and skepticism place Western science as a god.

And it is true that in the past scientists supported Eugenics and based on that, governments, whether from the right or the left, throughout the continent that have always hated indigenous people, promoted sterilizations of indigenous women.

Also, since humans are part of nature, the forces of human nature such as revenge and war to fight against those who do harm are important to be represented with deities, since the energy of revenge to punish those who do harm and the energy of war to fight those who do harm must be revered.

Therefore, the ideal is for experts in biotechnology, nanotechnology, robotics and artificial intelligence to emerge who, although not indigenous, defend the indigenous, hate the majority, hate the governments, hate the elites, hate the conservatives who invent conspiracy theories, hate the Freemasons and the Rosicrucians, hate the animal husbandry brought by the Europeans, hate the Abrahamic religions and hate the New Age to help me achieve my goals.

The idea is that they create secret groups with many tests to detect traitors and prevent them from entering, and with many precautions to prevent information from being leaked.

The indigenous people, because of their way of being, that, although they use technology, they are not consumerists, because they are simpler and live more in harmony with the rest of nature, they are the most suitable humans to populate the world.

The idea has long been promoted that artistic nudes depicting white humans such as Michelangelo's David, Greek and Roman statues, and Renaissance paintings are art, symbols of beauty and perfection:

But, it is indigenous nudity, indigenous semi-nudity and indigenous body painting that should be considered art, beauty and perfection:

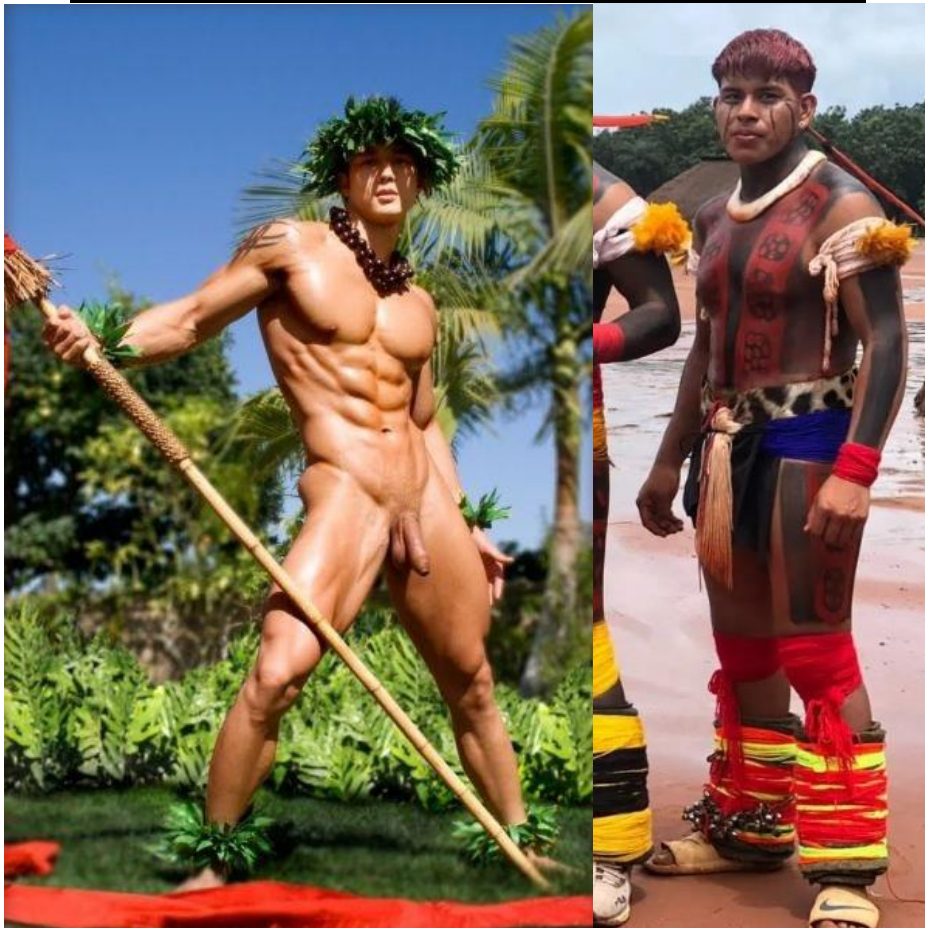

The reddish skin of indigenous people absorbs vitamin D from the sun better, is less irritated, and has less risk of skin cancer. Meanwhile, white skin resists the sun less, gets more irritated, has a higher risk of skin cancer and has more body hair that makes good hygiene difficult.

The slanted or almond-shaped eyes of indigenous people and East Asians protect more from the impact of the wind and protect more from sunlight. While wider and lighter eyes suffer more problems from sunlight and suffer more problems from the impact of wind.

The radiant black hair of the indigenous people resists sunlight more. Meanwhile, blonde and light hair is damaged more by sunlight.

Medium or small size indigenous have less risk of back problems and less risk of spinal problems. While, the greater height of white people has a greater risk of back problems and a greater risk of spinal problems.

Therefore, beauty and a symbol of perfection should be indigenous nudity and indigenous semi-nudity, and not white nudity.

As I have already mentioned before, a part of the indigenous people of this continent who are genetically pure (without mixing with other races) due to their reddish, soft and smooth skin; their slanted or almond-shaped eyes; and their

radiant, straight black hair has great beauty and a lot of sensuality, and this has been hidden by the system based on hatred of the indigenous people.

But, the indigenous traitors, in addition to being traitors, are physically ugly:

Why these traitorous indigenous people are born, I think it is due to genetic mutations. It's like those of us who are not indigenous, but think differently than the majority, I also think that we are born different due to genetic mutations.

Of course, the politically correct is going to deny the role of genetics in all this, but it is obvious that humans are animals and since they are animals, genetics does have a significant influence as it does in other animals.

That Jair Bolsonaro feels a visceral hatred towards indigenous people and considers them simple disposable things, is proven in phrases such as:

1- Jair Bolsonaro said: - To the people in the state of Roraima, I am Jair Bolsonaro. In 2019 we are going to destroy the Raposa Serra do Sol indigenous reserve. We are going to give weapons to all the landowners.

2- In a conference before Zionists (Jewish supremacists), Jair Bolsonaro said: -There will not be a centimeter demarcated for an indigenous reserve.

Jews are not a race. The plan of Zionism (Jewish supremacy) is to exterminate the indigenous people and Freemasonry is 100% Zionist.

3- In a speech made in 1988 in the Chamber of Deputies, Jair Bolsonaro said: -the Brazilian cavalry was really very incompetent, competent was the cavalry of the United States that decimated the Indians in the past and now they do not have this problem in his country.

It is true that later he says that he does not propose doing the same to the indigenous people of Brazil in the present, but that he shows admiration for what the United States army did to the indigenous people is proof of the visceral hatred he feels for the indigenous people, and that he would have liked the Brazilian army to have done the same in the past.

4- In an interview, Jair Bolsonaro said: - I wanted to see an Indian being cooked. I would eat Indian without any problem.

What Bolsonaro means with this phrase is that, for him, indigenous people are simple things or objects with which sadistic pleasure can be satisfied, and it is the same vision of indigenous people that politicians and elites in power have in all the countries of the continent, and the same vision of the indigenous people that the colonizers had in the past.

The video that proves that Jair Bolsonaro did say all this:

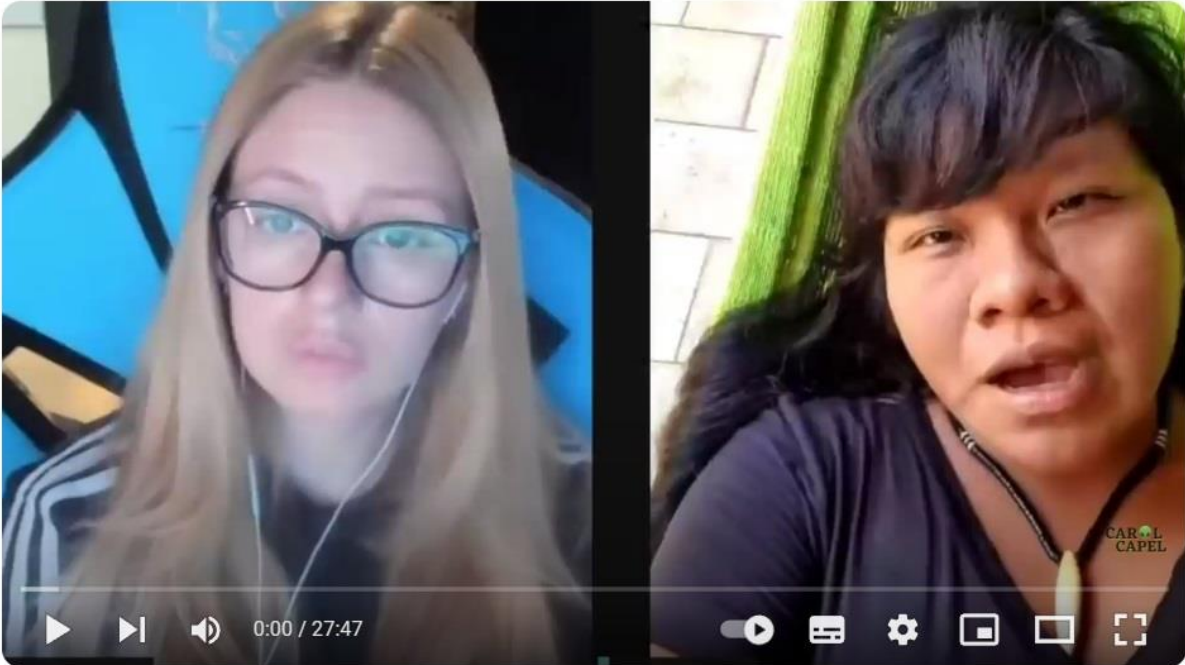

<https://youtu.be/XIKWMz8whdQ>

For this reason, the indigenous traitors who support criminals like Jair Bolsonaro and others like him in all the countries of the continent, in addition to being traitors, are complicit in all the crimes that these criminals commit against the indigenous people whom they hate visceral and sadistic.

The indigenous traitors are related to both Christian religions and New Age beliefs, for example, with the New Age belief that aliens visit us.

If life existed on other planets, it is unlikely that they would have visited us due to the enormous distances of light years that exist in space. And that life exists on other planets should not matter to anyone, the only thing that should matter is valuing and caring for life on this planet Earth.

This old indigenous traitor called Ysani Kalapalo from Brazil, who Jair Bolsonaro supports, made a scandal with her father against indigenous people who work at IBAMA, and this ridiculous old woman was the one who came out in that video promoting New Age beliefs by speaking of aliens and pyramids in the Amazon.

When this old woman called Ysani Kalapalo made that video promoting New Age beliefs by talking about aliens and pyramids in the Amazon, it was not that she was a brainwashed indigenous person and it was not simply that she had a colonized mind, the old woman did it with malice and clearly knowing what she was doing.

Let us remember that among indigenous people and East Asians (who have the same genetics) there has always been a minority who are traitors and have evil by nature. It is true that many indigenous people are brainwashed and colonized minds, but there is also this minority within the indigenous people who are consciously evil.

The conservatives who invent conspiracy theories to defend the majority and pass them off as innocent victims of the elites, always with their stupidities, in the following video capture talk about Black Kabbalah:

CONHECIMENTOS SECRETOS DA CABALA NEGRA - Como a Madonn...

There is no white Kabbalah and black Kabbalah. Judaism and the Jews never spoke of a white Kabbalah and a black Kabbalah. Kabbalah is Jewish mysticism, it is not white and it is not black. The Kabbalah is completely related to Freemasonry, the Rosicrucians and the New Age, and in the lodges they simply talk about Kabbalah, and not about one white and one black.

When these criminals talk about a black Kabbalah they are defending Judaism, because they mean that according to them there is a black Kabbalah and they associate the color black with evil, and a white Kabbalah and they associate the color white with goodness, that is, they are saying that there exists a Judaism that is good.

It is the same as when the Camelot project of the United States did an interview with a supposed former illuminati and member of the Islamic religion called Leo Zagami, and this Leo Zagami in certain videos talks about good Masonic lodges and bad Masonic lodges, a whole brainwashing to make people believe that there are good Masonic lodges:

Iluminados de Baviera
Wikipedia · La Orden de los Iluminados es el nombre dado a varios grupos. Históricamente se refiere a la organización Illuminati de Baviera, una sociedad secreta de la época de la Ilustración, fundada el 1 de mayo de 1776, aunque el 12 de agosto es cuando se celebra el día internacional de los iluminatis.

And a whole brainwashing to make people believe that the Illuminati exist in the present, and eliminate the attention of those who truly influence the system, which are the Freemasons. It's the same as when they talk about reptilians and other stupid things, they seek to eliminate the attention of the real criminals.

The genetics of these people, look at their physical features, their looks and their gestures:

The strategy that these people always use is to mix little truth with many lies, in this way they create a lot of false information that benefits the system in one way or another.

So, they are Freemasons who pretend to be against themselves, the military training they always receive is to give some real information, but, always mixed with many lies, they are people who work for the same elites they claim to denounce.

Always the genetic influence:

The Order of Malta:

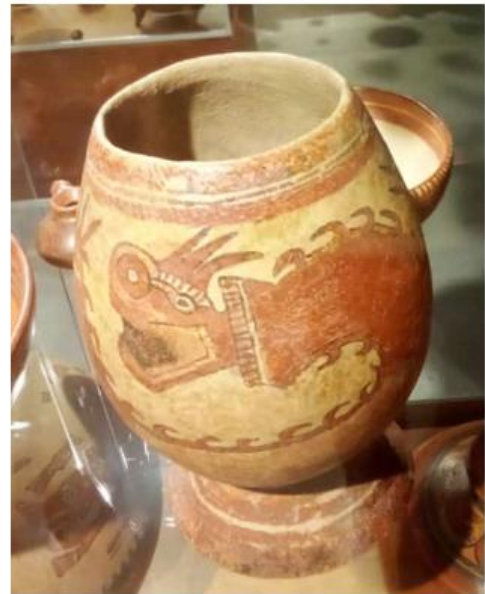

The same order of Malta to which the royalty of Spain belong:

Contrary to what conservatives who invent conspiracy theories claim: the elites in power are not all-powerful and they are not intelligent because they always leave many clues or evidence.

In pieces made by indigenous people of Costa Rica and other countries on the continent: representations of the god Quetzalcóatl (feathered serpent) or Kukulcan (feathered serpent) have been found, who was worshiped by the indigenous Mayan and Aztec ethnic groups of Guatemala and Mexico.

And the following representations of nature spirits have been found in pieces made by indigenous people who, if seen by the New Age, say that they are extraterrestrials of the gray race:

The aborigines of Australia drew these nature spirits which they called Wandjinas:

And they simply represent spirits of clouds, rain and water.

Apparently the New Agers like Aleister Crowley and the founders of Theosophy who gave rise to Freemasonry, before inventing the gray extraterrestrials, knew that the indigenous people represented spirits with these forms: then they invented the gray extraterrestrials to denigrate to the cultures that worshiped these spirits by saying that they worshiped extraterrestrials.

An advantage of me having been New Age for a long time in my past is that I was an enemy infiltrated within that at some point was going to expose them, something they never imagined.

According to the aborigines of Australia: the Wandjinas are servants of Yurlunggur (the rainbow serpent) and helped the rainbow serpent create everything that exists.

Remember that the Jews invented in the Old Testament (Torah and Tanakh) that the serpent represents the devil, and the Christians invented in the New Testament Apocalypse that the dragon represents the devil.

In many indigenous and East Asian cultures, snake- or dragon-shaped gods are related to the shape of riverbeds and the shape of lightning. They always represented forces of nature that make life possible.

But Judaism, Christianity and Islam turned these gods into symbols of their absurd beliefs in the devil and demons.

In the aborigines of Australia: the rainbow snake (Yurlunggur) and his assistants the Wandjinas (spirits of clouds and rain) were the ones who brought the water and by bringing the water they created everything that exists because for life to exist, water must exist.

The rainbow serpent created the river beds with its body, the deep valleys and mountains by moving.

It is called the rainbow snake because it represents the rainbow that emerges after the rains. The body of Yurlunggur (rainbow snake) represents the rainbow.

In Australia, the aborigines suffered the extermination of the majority of their population. Judaism, Christianity and Islam turned symbols of forces of nature into symbols of their belief in the devil.

Then, since the New Age is a form of Judaism and Christianity mixed with Buddhism and Hinduism, and the New Age arises from Freemasonry and the Rosicrucians: they invent that the snake-shaped gods are reptilian extraterrestrials, and that Those spirits with those shapes are gray extraterrestrials, that grays and reptilians are bad, and that the grays serve the reptilians to denigrate and continue promoting hatred of these indigenous cultures.

Corrado Balducci was a Catholic priest, demonologist, exorcist and advisor to Pope John Paul II who promoted the New Age lie that different extraterrestrial races from different planets visit us. A demonologist and exorcist who studies and fights demons is the same as a unicornologist and unicorn hunter who studies unicorns and fights unicorns.

The Vatican, all the Christian religions, the CIA, Freemasonry, the Rosicrucians, the New Age, the royalty of Europe, the European Union, the Jews,

Israel and the United States government have always been connected and are part of the same plan of the elites in power.

And the independence of all the countries of the continent was to benefit Creoles and mestizos, not indigenous people. In fact, when all the countries of this continent became independent from the countries of Europe: invasions of indigenous territories, the expulsion of indigenous people from their territories and massacres of indigenous people by European immigrants, Creoles and mestizos increased.

Truly, the fanatics of Christian religions are crazy, one day I had to go out to buy some things, and a crazy drug addict dressed like a hippie phenomenon from where I live told me: - He ordered your soul in the name of Jesus Christ to have peace and quiet. 🤪🤪🤪🤪🤪🤪

Contrary to those who make believe the damned Freemasonry, the damned Theosophy, the damned Rosicrucians and the damned New Age: it is not compatible to worship other gods and practice rituals with worshipping the Judeo-Christian god and his servants (angels, saints, Jesus Christ, archangels and virgins).

The Judeo-Christian god is very clear that he condemns the worship of other gods and that he condemns any magical practice:

Exodus chapter 20, verse 3: You shall have no other gods before me.

Exodus chapter 22, verse 18: You will not let the sorceress live.

Exodus chapter 23, verses 13 and 24: Do not call on the name of other gods; Let no one hear it from your lips. You shall not bow down to their gods or serve them, nor do as they do; But you will completely overthrow them and completely break their statues into pieces.

Exodus chapter 34, verse 14: For you must not bow down to any other god, for the Lord, whose name is Jealous, is a jealous God.

Leviticus chapter 19, verse 31: Do not turn to enchanters or soothsayers; do not consult them, contaminating them with them.

And this Judeo-Christian god is the same Allah of the Koran and in the Koran the same thing is written:

Quran, surah 16, verse 51: -Allah has said: Do not take two gods! He is only One God! Fear Me, then, and only Me!

Quran, sura 8, verse 12: -When your Lord inspired the angels: I am with you. Confirm then those who believe! I will strike terror into the hearts of those who do not believe. Cut their necks, hit them on all their fingers!

These fictional characters of angels, archangels, seraphim, cherubs, Jesus Christ, saints and virgins are servants of the Judeo-Christian god according to all Abrahamic religions (Jewish, Christian and Islamic), therefore, these fictional characters represent the condemnation of the worship of other gods and condemnation to any magical practice.

I think that Hitler and the Nazis were part of a plan by the Jews themselves to pass them off as races, to pass them off as innocent and harmless victims, and thus justify the creation of the state of Israel.

After all, sacrificing a part of them to achieve their goals means nothing to them.

And that Freemasonry has everything to do with Judaism, just read how they believe that Hiram (an Old Testament character) according to them was the first Freemason. And how they use Jewish symbols such as the Star of David and the seven-branched candelabrum (Menorah).

Therefore, the link between Judaism and Freemasonry: it is not a lie, it is not a conspiracy theory and it is something accepted by the Freemasons themselves. But, the system wants us to believe that something that the Masons themselves accept is a conspiracy theory and that it is only an invention of the book: The Protocols of the Elders of Zion.

By inventing the Old Testament (Torah and Tanakh), the Jews are responsible for the birth of Christianity with the New Testament and the birth of Islam or the Muslim religion with the Koran, which is inspired by the Old Testament.

In turn, Judaism emerged from the Zoroastrianism of the Persians and the Arabs of the present are the same Persians of the past, which is why the Jews of Israel are killing their origins.

One criminal gang (the political Right and the Neoliberals) makes people believe that Jews are the good guys and the other criminal gang (the political Left) makes people believe that Islamists or Muslims are the good guys, but, in reality, both are the same.

And the Jews and the Islamic or Muslims are religions and they are not races, but it is convenient for the rotten system in which we live to make people

believe that they are races to defend religions that are shit and that the world continues in the same system.

We must always remember that Julio Popper, who was Jewish and a Freemason, was one of the causes of the genocide of the indigenous people of the Selknam ethnic group:

And as part of the sadistic pleasure that this caused him, Julio Popper made photographic albums as trophies in which he included these photographs:

We must never forget that in the extermination of indigenous Mayan ethnic groups in Guatemala by presidents Efraín Ríos Montt, Óscar Humberto Mejía

Victores and Marco Vinicio Cerezo Arévalo, they received military equipment, small planes and weapons from Israel and the United States government to that they would exterminate the Mayans:

Therefore, anyone who defends Judaism, the United States government, the European Union, the Vatican, the CIA, Freemasonry and the colonizers is complicit and guilty of the genocide of the indigenous people that continues to the present.

There is a real problem with artificial intelligences and that is that they are programmed by people like the majority who defend the majority. For example, ChatGPT is an artificial intelligence that, when faced with any question, always responds with the politically correct words of peace (shalom for Jews), equality, freedom, fraternity and brotherhood that Masonic lodges always talk about.

According to the Jewish website <https://www.enlacejudio.com/>: -Shalom actually also involves the synthesis of opposites and can exist in a state of war as well. We can see this in several passages in the Talmud and the Torah. Shalom is actually the peace that is achieved after struggle and the integration of difference.

According to the website <https://investinhistory.ca/> : - One of the essential elements of the Pax Romana was the establishment of political stability throughout the empire. Emperors maintained control over vast territories, which reduced internal conflicts and ensured peace within the borders. Under the Pax Romana, Roman culture spread and influenced several regions.

Shalom and Pax Romana mean the same thing: it is the period of stability that arises after Colonial States succeed in dominating and subduing. As the Jews would say, it is the calm that comes after the storm (storm is understood as colonial wars).

Therefore, when organizations from the United States and Europe talk about peace they always refer to colonial peace. And when the majority speak of peace they unconsciously refer to colonial peace where the victims are imposed not to defend themselves, to have love for their enemies, to turn the other cheek, to forgive everything and to endure everything.

It is the same as the concept of democracy and the libertarian ideas of Andrew Jackson where a majority (Europeans, Creoles, mestizos and others) impose their will and interests above the minorities (indigenous).

And all the States, nations or homelands on the continent were founded through hatred of the indigenous people, the oppression of the indigenous people, the reduction of the population of the indigenous people and the extermination of the indigenous people to economically benefit a majority (European immigrants, creoles, mestizos and others), and this remains the same in the present.

For this reason, money in bills and coins always pays tribute to politicians, presidents, soldiers and police officers who caused all this.

We already know that the indigenous people of this continent and the East Asians have the same genetic origin, the aborigines of Australia have another genetic origin, and the indigenous people of Africa such as the pygmies and the bushmen have another genetic origin, but what is important is that : Everyone is better than the majority for having more respect for the different forces of nature, for having a way of being, a vision of the world and a way of thinking that is different from the majority that is not indigenous.

Just like the majority of those who are not indigenous, they do not like indigenous people, they laugh, make gestures of contempt and discomfort when they have indigenous people next to them. Since I was a child, the majority that is not indigenous always caused me disgust and annoyance, that's why I was shy and the majority scared me.

Furthermore, the majority make a lot of noise that is quite annoying, while the indigenous people value silence more.

And when the majority say that indigenous people bother them for being so apart from the majority, they are saying that I also bother them because I am also very apart from the majority and the majority seems 100% bad to me.

No damn thing is going to force me to think like the majority, or to be like the majority, or to speak the same as the majority, or to have the same vision of the world as the majority, nor to have the same concepts of good and bad that the majority have, most of them hurt me since I was a child.

Most people always put what they believe and what they think everywhere, but if I do the same it bothers them.

The mother goddess in the indigenous people of the Kogui ethnic group and in the indigenous people of other ethnicities represents the formative part of nature, as well as the maternal womb.

When the masculine aspect of the universe actively sent out matter, and then receptively the feminine part of the universe picks up that matter and shapes it. According to the indigenous people of the Kogi ethnic group, the Mother goddess created the cosmic egg.

What is the cosmic egg?

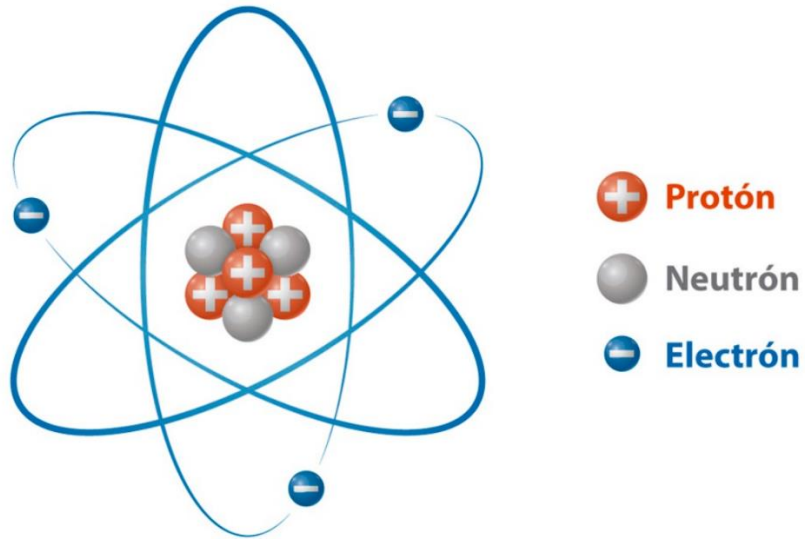

It is when all the matter in the universe was united in one place, similar to the structure of an egg that, when it exploded, caused the matter to expand throughout space, forming planets, moons, stars, galaxies, meteorites and comets.

Before the Catholic priest named Georges Lemaître created the Big-Bang theory: the indigenous people of the Kogi ethnic group were already talking about this.

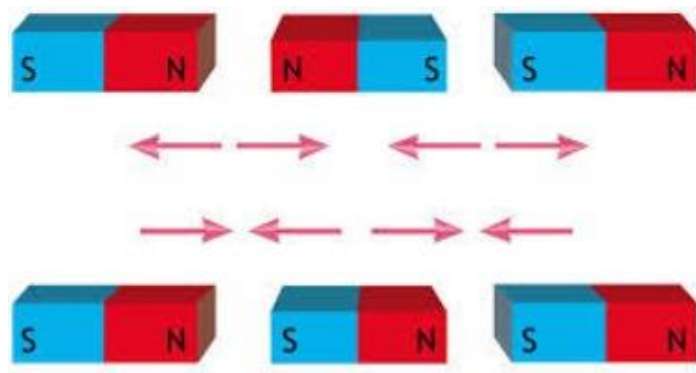

Before the minds of many Chinese were colonized by Indian Buddhism (son of Hinduism created by the Aryan invaders (inhabitants of Iran)), by Islam, by Christian religions and by atheism:

In Taoism: the Tao, which is the essence of the universe, produced the one, and the one can be understood as that moment when all the matter in the universe was unified, before the explosion occurred that caused the matter to expand by the universe.

When Taoism speaks of Yin and Yang ☯, that Yin cannot exist without Yang and Yang cannot exist without Yin, and that Yin and Yang are present in everything, this is reminiscent of the structure of atoms, where inside the atom there are electrons and there are protons, the electrons have a negative charge and the protons have a positive charge, electrons and protons are attracted by the electromagnetic force.

Yin and Yang ☯ in magnets: The north pole and south pole of magnets attract each other, but two magnets with the north pole repel each other and two magnets with the south pole repel each other.

Just because indigenous people and people of East Asia did not speak in the logical language of the West: it does not mean that they did not speak about scientific concepts.

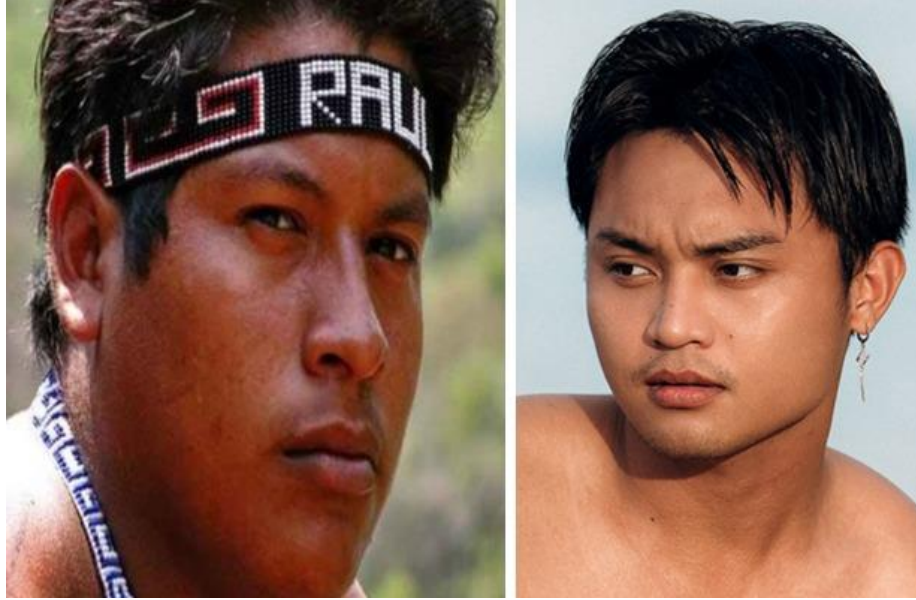

And that the indigenous people were backward, ignorant and stuck in time are just lies invented by the colonizers. Just like when the priest Fray Diego de Landa burned Mayan codices:

Likewise, all the colonizers without distinction of nationality (Spanish, Portuguese, English, Scottish, Irish, French and others) destroyed much of the knowledge of the indigenous people and made them believe that before colonization they were ignorant.

A Chinese, a Filipino and an indigenous person from this continent to which the colonizers gave the name America have the same genetics. And those eyes always look thoughtful or thoughtful. Also, his greater appreciation of silence, that is, his greater appreciation of observation.

An Arab and Santiago Abascal from VOX, or an Arab and Eduardo Bolsonaro (son of Jair Bolsonaro), have the same genetics and there is no way they can deny it:

In the previous photos, they are the same looks, the same gestures and quite similar physical appearance, in addition to the very similar shape of the nose. And if we see the statue of a Roman emperor like Constantine I, it is the same appearance:

And a Jewish rabbi and an ancient Viking would look exactly the same:

The representation of what a Viking would look like in the past and the photographs of Jewish rabbis in the present are the same physical appearance, the same looks that look more predatory just like Santiago Abascal, Eduardo Bolsonaro and the Arabs.

Arabs, Jews and Indians (inhabitants of India) have the same shape of eyes and the same shape of the nose. It doesn't matter that they have different

skin tones and it doesn't matter that they have different hair color because genetic origins have no relation to hair color and they have no relation to skin color:

A Chinese, a Japanese and an indigenous person from this continent, although their skin tones are different, their genetic origins are the same because they have the same type of eyes and the same type of hair. Small differences in skin tone are just adaptations to the environment over time:

Therefore, when YouTube channels that promote hatred of indigenous people like indiomamon believe that skin tone is related to genetic origins, they are quite stupid. Skin tone has no relation to genetic origins.

It is true that there are Arabs and Indians (inhabitants of India) who have café-au-lait skin as these people say. But, these Arabs and Indians (inhabitants of India) have the same shape of eyes, the same height and the same shape of the nose that the Jews and Europeans have.

The same shape of eyes and the same shape of nose are evidence of the same genetic origin, it does not matter that they have different skin tones.

While a human emits 0.245 grams of methane per day, a cow emits 200 grams of methane per day. While a human emits 1 gram of nitrous oxide per day, a cow emits 8 to 12 grams of nitrous oxide per day. While a human emits 1 to 5 grams of ammonia per day, a cow emits 100 to 300 grams of ammonia per day.

To make a house for 4 humans with a garage for one car, approximately 400 to 800 square meters can be deforested. And to make a pasture for 3 cows and 1 bull, between 5000 to 20 000 square meters can be deforested.

It is true that all animals emit methane, nitrous oxide and ammonia, but they do so in an amount that nature can process.

While cow and bull farming produces excessive methane, nitrous oxide and ammonia that nature cannot process, and therefore generates climate change. In addition, they cause a lot of deforestation.

A human can consume 2 to 4 liters of water per day, while, a cow can consume 40 to 100 liters of water per day.

Therefore, bull and cow farming, developed by the Persians of the past (Arabs of the present), by the Indians (inhabitants of India) and by the white races (Celts, Greeks, Basques, Romans, Vikings and Slavs) does destroys and pollutes the planet.

The tastes of the majority cannot be above life and they cannot be above planet Earth. But, since the majority are selfish, they only think about themselves,

they are individualists, and, therefore, they are bad people: they believe that their tastes or whims are above life and planet Earth.

Racism towards blacks and mulattoes is condemned by society, but society is sick if it accepts and allows racism towards indigenous people and East Asians. And hatred of indigenous people is promoted by the damn entertainment industry (movies, series, soap operas, cartoons and television in general).

What is the genetics of the majority of Nicaraguans?

Most Nicaraguans have a small part of their European genetics, a large part of their black genetics, and a large part of their indigenous genetics.

That is to say, the genetics of the majority of Nicaraguans is a small percentage of Europeans mixed with a large percentage of blacks and a large percentage of indigenous people.

The Miskitos of Nicaragua and Honduras are very genetically mixed with blacks, but they feel indigenous. It seems that it is the same with the Pataxó of Brazil.

Just like many Mexican mestizos who hate and despise indigenous people, say the word prieto as an insult and that mestizaje is improving the race: many Nicaraguans say that mestizaje is improving the race and that indigenous people are ugly.

For this reason, I believe that many indigenous people of the Ngobe ethnic group dislike most Nicaraguans, in addition to the significant differences in their way of being that is influenced in part by genetics.

Most do not care that the white races (Celts, Slavs, Vikings and Norse) will practice human sacrifice.

Most do not care that when the Greeks and Romans killed humans in wars, these killed humans were dedicated to the war gods of the Greeks and Romans, therefore, they were human sacrifices.

Most do not care that when the Catholic Inquisition and the Protestant Inquisition defamed, tortured and murdered humans by burning them alive and in other ways, for carrying out these defamations, torture and murders in the name of their Judeo-Christian god, they were also human sacrifices.

Most do not care that the white races (Greeks, Romans and Vikings) practiced infanticide by murdering children who were born weaker or with some physical disability. And I have never seen anyone promote hatred of white people because of all this.

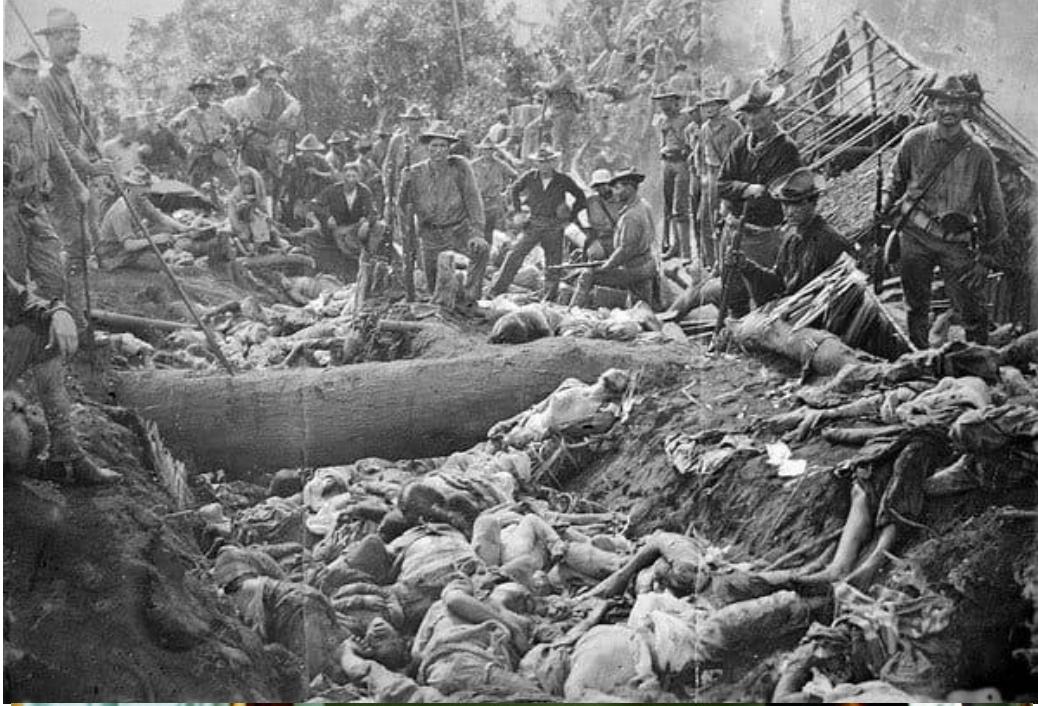

The majority do not care that leaders of Christian religions such as evangelical pastors and Catholic priests sexually abuse or rape minors, they always try to justify them with the fact that they are simple errors, when sexual abuse and rape are not errors, and they are guilty and complicit because they want this to be covered up and it bothers them a lot that the subject is talked about, for example, a false friend from the past who had all the Celtic genetics (light pink skin, a lot of body hair, great height, blue eyes and blonde hair), which

on the other hand is conservative and against the adoption of children by the LGBT population.

The majority do not care about wars between whites from different countries in Europe since forever. But, the majority do care about the wars that existed between different indigenous ethnic groups to justify their hatred for the indigenous people of the present.

When the murder of Filipinos by United States soldiers occurred in the years from 1899 to 1902, when the United States used Agent Orange against Vietnam and this caused children with disabilities to continue being born in Vietnam, and the CIA trained military personnel Brazil to use napalm (Agent Orange) against the indigenous people during the military dictatorship was always an attempt to eliminate that genetics, just like when the Spanish colonists wanted to colonize China.

14 years ago, on July 8, 2010, this massacre of indigenous people by the State occurred in Panama:

In all countries on the continent: the presidents, senators and deputies who cause this are elected by the majority of non-indigenous people who consider the

lives of indigenous people as disposable and place their economic interests above those of indigenous people.

In all the countries of the continent: the police and the military are damn criminals at the service of the Colonial State, they deserve the death penalty (to be sacrificed) and they are the same as the colonizers of the past. And it is a crime that the majority who are not indigenous have children on the continent because they cause the replacement of the indigenous people.

When crazy ants (*Nylanderia fulva*) exterminate native ants and displace them in many countries: it is the same thing that the non-indigenous majority has done with the indigenous people of exterminating the majority of indigenous people, displacing them and replacing them.

And when a parasitic fly or a parasitic wasp injects its eggs into other animals so that its larvae (for example, thoraxes) devour them from the inside, it is the same thing that most people have done by parasitizing the minds of the indigenous people with things brought by the European settlers: the majority of the indigenous people at present are of Christian religions and do not know that those beliefs were brought by the European settlers, and the majority of indigenous people do not know that bull and cow farming was brought by the European settlers.

For this reason, I do make the distinction between the majority of indigenous people who have their minds parasitized with indigenous traitors, although many times the line that differentiates an indigenous person with a parasitized mind from an indigenous traitor is very thin.

Most bee predators only attack bees when they are outside the hives and drop their traps like spiders do with their webs. But, these giant hornets invade bee hives, kill adult bees, and steal bee larvae to feed their own larvae:

All this time, I have compared the different human races and different human ethnicities with the different species of ants, the different species of bees and the different species of wasps, because they have very similar behaviors, and within a hive or an anthill there are hierarchies.

Someone look at the appearance of these giant hornets that looks dangerous and sadistic due to genetics, and tell me: what is the difference with the looks and gestures of characters like Santiago Abascal and Eduardo Bolsonaro?

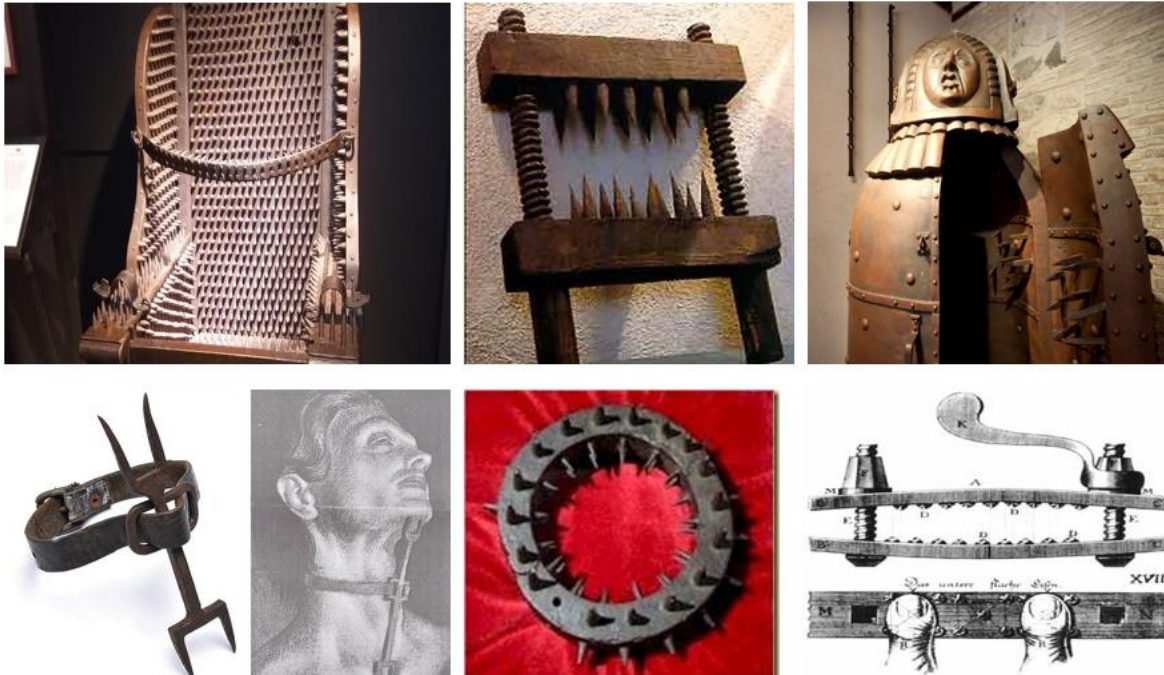

Isn't the situation of the indigenous people up to the present similar to that of a prey trapped in a spider's web from which it cannot escape?

I think that, in the case of parasitic flies, parasitic wasps and those giant hornets, we all agree that they should be eliminated because of the danger they represent and because they are abominable.

But, if someone proposes this same thing, for many humans, they are considered crazy, a psychopath and someone bad, and it is normal that, for a parasitic fly, a parasitic wasp and a giant hornet, those who want to eliminate

them are bad, crazy or psychopaths. It is normal that predators and parasites, too, fight for their survival.

Most do not care that Christians and white Europeans in the Catholic inquisition and Protestant inquisition practiced human sacrifice by torturing their victims with the following instruments of torture to force them to confess any stupidity such as flying through satanic rites or practicing covens with orgies with the devil, and then murder them by burning them alive:

Most do not care that white races like the Vikings and Celts also practiced human sacrifice, for example, the human sacrifice of the blood eagle of the Vikings:

Always remember that Europeans have Celtic, Viking and Roman genetics, and mestizos also have part of their European genetics. Most do not care that the white race of Romans made humans fight to the death in the Roman Colosseum: they also made human sacrifices:

Let it always be remembered that the majority because of their selfishness, individualism, because they only care about money, because of their hatred of the indigenous people and because of their indifference to the lives of the indigenous people; In all countries on the continent they make human sacrifices when they vote for politicians of Christian religions and politicians who belong to Freemasonry who allow and cause these deaths:

But, if someone proposes to do the same to the majority of those who are not indigenous: for the damn majority of unfortunate humanity he is bad, crazy, psychopathic, they want to beat him, lynch him and even kill him.

Never forget that the majority of humanity by consuming red meat from animals brought by Europeans such as cows and bulls, by consuming milk and dairy derivatives, the majority is causing: a lot of deforestation to make pastures, a lot of water consumption because these animals consume a lot water, and excessive emissions of polluting gases such as methane, nitrogen and ammonia.

The Indians (people of India) have no relationship with the indigenous people.

Those who are genetically related to the indigenous people of this continent are the Chinese, Filipinos and people from other places in East Asia because the ancestors of the indigenous people of this continent came from Siberia, and the indigenous people of Siberia have the same genetics as the people of China, the Philippines, Vietnam and other places in East Asia.

How the New Age (New Age) and its sects such as Theosophy that all arise from Freemasonry: they are a salad of beliefs, it is true that they mix all beliefs, but they are mainly composed of Judaism and Christianity mixed with Hinduism and Buddhism.

And Buddhism did not arise in China, it was Taoism that emerged in China. Buddhism emerged in India as a child of Hinduism just as Christianity and Islam are children of Judaism.

All New Agers promote India as the best and say that India is the center of spirituality. I have seen many videos from India and the lack of hygiene they have, the high degree of pollution that exists there and that caste system that is the same as Western social classes is disgusting.

If the Chinese had not been so influenced by the West, and the Filipinos had not made the West their own and the majority of Filipinos had remained indigenous, those places would be paradises, and nothing to do with India.

In fact, the people of India and the white races have the same Arab ancestors, they both descend from the Aryans (inhabitants of Iran) of the Persian empire, so it would be better if the white races and the mixed race who have part of the European genetics should be called Indians.

And the Indians (people of India) were always ranchers just like the white races. It is true that they consider cows sacred, but they do consume milk and they can offer cows as sacrifices to gods such as the goddess Kali and the god Shiva.

And just as there are many people from the political Right, Neoliberal and neo-Nazi who belong to Christian religions; I know of neo-Nazi people, people from the political right and neoliberals who are attracted to both the Viking gods and the gods of India equally, because in Facebook groups from the past where I was there were many of those people who almost always were Europeans.

Hitler and the Nazis promoted the Viking gods, social Darwinism, and also had a lot of admiration for the caste system of India, which is the same as the social class system of European origin.

The disastrous Jews copied that about the flood from a Sumerian text called the Poem of Gilgamesh.

And it is quite stupid because it says that Noah took a pair of each animal to the boat, logically the predatory animals would have eliminated the herbivorous animals and furthermore that there was only one pair of each animal according to the Jewish story.

That, although it hurts the disastrous Jews (who are a disastrous religion and not a race), they come from the same Arabs as the Muslims, for example, those Palestinians that the Jews of Israel murder and we must always repeat it, for having the same Persian origin. Persians of the past and Arabs of the present are the same.

What would happen if someone in the present said that a snake spoke to them?

The answer is that he would be considered mentally ill and schizophrenic. But, that was what the Jews wrote in the Torah (Old Testament) that a serpent spoke to Eve.

Believers can say that it is symbolic and that it was the devil with that shape, but the text says that this god condemned it to lose its legs and crawl on the ground, which is why, according to the Jewish text, it was a real snake.

The devil does not exist and demons do not exist, but suppose they do exist, and they take possession of the body of a snake 🤪🤪🤪: it would be scientifically and biologically impossible for them to make a snake speak because snakes do not have the vocal cords that humans have to pronounce words. Most people just believe stupid things.

And the hippie clowns of the New Age who talk about pacifism so that the victims do not defend themselves and allow them to continue being hurt, who emerged from Freemasonry (like Theosophy), and believe in good aliens who are tall, white skin, blue eyes and blonde hair (Pleiadians and Venusians), they are going to say that the snake was a reptilian extraterrestrial.

When the stupid Jewish text is clear that that god punished the snake by removing its legs and making it crawl, therefore, they were referring to a snake from the earth and not a being from another planet.

All over the world, the majority of people who believe this nonsense invented by the Jews are crazy. Majority does not mean the same as all.

But, in Brazil, Mexico, Guatemala, Argentina, Colombia, Chile, the United States and Canada, in addition to consciously there is more hatred of indigenous people because they only care about money, because they place money above everything, because indigenous people They are an obstacle for several million-dollar industries (cow farming, bull farming and other animals brought by European settlers, mining, logging, oil and others), because they say that indigenous people are children of snake by having snake-shaped gods (Quetzalcóatl, Kukulcan and Amaru), say that they are cursed by the Jewish god,

and they already have an instinctive hatred of the indigenous people that comes in their genetics: they are three times as fanatical, believing in stupid things invented by the Jews.

Most of them are crazy because they believe that civilization, development, progress and intelligence means living in disgusting cities full of garbage, noise and pollution; They believe that it is throwing garbage and human excrement into the rivers and the sea; They believe it is placing money and Western technology above life and the environment; They think it is very nice and they believe that it is the farming of bulls, cows and other animals brought by European settlers that causes a lot of deforestation to make pastures, a lot of water consumption and excessive emissions of polluting gases (methane, nitrogen and ammonia).

Most of them are 100% bad and crazy. The majority have no forgiveness, and deserve the death penalty just like the United States government, the European Union, the Vatican, the Christian religions, the Freemasons, the Rosicrucians, the New Age, the CIA, Israel and the majority of whom are not indigenous.

In the indigenous ethnic groups of the Philippines: the Duwendes are the small spirits of the forests and jungles that I invoke in rituals.

Although the word duende and the word duwende are similar, apparently they do not have the same origin, and it is just a coincidence. And for those who say that this is childish or nonsense, for me Judeo-Christian beliefs such as angels and demons are childish and nonsense.

The Duwendes of these indigenous ethnic groups of the Philippines are the same as the Aluxes of the indigenous Mayan ethnic groups, the Aluxes are small spirits of the forests and jungles.

When we talk about those who harm indigenous people, we always think of European settlers. And it is not true that only European settlers harmed the indigenous people.

Creoles and mestizos also harm them and maintain this system of oppression of indigenous people throughout the continent. But, many people believe that black people are allies of indigenous people and nothing could be further from the truth.

There were black settlers, black cowboys, and the United States Buffalo Army made up of blacks who helped the United States government exterminate the majority of indigenous people and dominate the surviving indigenous people.

Black people have privileges that indigenous people do not have, on this continent they even have countries that are theirs like the Dominican Republic and Haiti.

And these blacks have religions such as Santeria, Yoruba, Voodoo and others where animal sacrifices are mandatory. They also relate to the black Bantu of Africa. These Bantu harm indigenous ethnic groups in Africa such as the Bushmen and the pygmies.

In Africa: the Baka Pygmies, for example, suffer expulsion from their territories, torture, discrimination, contempt, massacres, abuses, rapes and since many do not consider them human, they even suffer cannibalism by guerrilla groups.

For this reason, the majority of blacks who are not indigenous are equal to the majority of Europeans, Creoles and mestizos. And the minority of blacks who are indigenous in Africa: they are different.

In Cuba, for example, indigenous ethnic groups such as the Tainos were completely exterminated by the colonizers, that is, all members of these indigenous ethnic groups were murdered, the same thing happened in Haiti and the Dominican Republic.

And both in Cuba and in Haiti and the Dominican Republic: the blacks brought by the colonized were used to replace the indigenous people.

You have to see what the majority of blacks and mulattoes are like to realize that they are the same as the majority of Europeans, Creoles and mestizos: selfish, individualistic, indifferent to the life of indigenous people, consider indigenous people who defend themselves or take revenge as criminals and savages, disproportionate and irrational when they believe that if someone steals to eat they are committing a serious crime equal to murder or rape, religious fanatics of Christian religions, classist when they have money, very aggressive, conservative, noisy and do not value silence.

And I mean most, not all, because obviously there are exceptions.

The people of India (Indians) are more like whites and mixed race people for these reasons:

1. Livestock, although for Indians (people of India) cows are sacred, if they drink milk, and they sacrifice cows and bulls to their gods such as the goddess Kali and the god Shiva.

2. The Indian caste system is the same as the social class system of Western and European origin.

3. The European colonists brought the idea that civilization is living in cities that are polluted and full of garbage, and they brought about throwing human excrement and garbage into the rivers and the sea. The Indians (people of India) throw their dead in the Ganges River and bathe there because they consider it a sacred river, the cities of India are a garbage dump (full of garbage), they have a rat temple full of dirt, and when they go to the bathroom they only use water and one of their hands to clean themselves.

4. Indians (people from India) have the same racist idea that light represents good and darkness represents evil that whites and mixed race people have. And this is because the Indians (people of India) and the whites emerged from the same Aryans (inhabitants of Iran) of the Persian empire.

The idiot Christopher Columbus thought he had arrived in India. But, in reality, Indians (people from India) in their culture are more similar to whites and mestizos, and not to indigenous people. And physically: indigenous people look more like Chinese and Filipinos, and not like Indians (people from India).
